### ACADEMIC POSITIONS

---

**Associate Professor**, School of Public Affairs, Arizona State University, 2013-Present

Associate Director, Center on Technology, Data, and Society, Arizona State University, 2019-2023

Core Faculty, Center on Technology, Data, and Society, Arizona State University, 2019-2022

Faculty Honors Advisor, Barrett Honors College, Arizona State University, 2019-2022

Director, Undergraduate Programs, School of Public Affairs, Arizona State University, 2018-2020

Core Faculty, Center for Social Dynamics and Complexity, Arizona State University, 2017-Present

Honors Faculty, Barrett Honors College, Arizona State University, 2016-2017

Visiting Professor, Department of Political Science, Otto-Friedrich-Universität, Bamberg, Germany, 2015-2016

Visiting Professor, Graduate School of Public Administration, Seoul National University, Seoul, Korea, Fall 2015

Visiting Lecturer, Department of Public Administration, Erasmus University-Rotterdam, Rotterdam, Netherlands, Spring 2014

Graduate Faculty, Complex Adaptive Systems Science, Arizona State University, 2013-Present

Director, MPA/MPP Programs, School of Public Affairs, Arizona State University, 2012-2013

Senior Global Futures Scholar, Julie Ann Wrigley Global Futures Laboratory, Arizona State University, 2010-Present

Founding Faculty, Center for Policy Informatics, Arizona State University, 2008-2013

Affiliated Faculty, Decision Theater, Arizona State University, 2007-2010

Assistant Professor, School of Public Affairs, Arizona State University, 2007-2013

Postdoctoral Researcher, John Glenn School of Public Affairs, Ohio State University, 2007

Graduate Research Associate, John Glenn School of Public Affairs, Ohio State University, 2006

Graduate Research Associate, Department of Computer Science and Engineering, Ohio State University, 2005

### EDUCATION

---

Ph.D., Public Policy & Management, John Glenn School of Public Affairs, Ohio State University, 2006

M.P.A., Graduate School of Public Administration, Seoul National University, South Korea, 1997

B.P.A., Department of Public Administration, Daejon University, South Korea, 1994

### EDITOR EXPERIENCE

---

Co-editor (Environmental Policy), *Journal of Policy Analysis and Management*, 2018-2022

Co-guest Editor, *Government Information Quarterly*, Internet Plus Government (with M. Liu), 2017

- Co-guest Editor, *Information Polity*, Internet, Citizens, and Public Policy (with M. Liu), 2017
- Co-guest Editor, *Government Information Quarterly*, Digital Government and Wicked Problems (with J. Zhang), 2016
- Co-guest Editor, *Information Polity*, Digital Government and Wicked Problems (with J. Zhang), 2016
- Co-guest Editor, *Journal of Policy Analysis and Management*, Policy Informatics (with A. Desai), 2015
- Co-guest Editor, *The Innovation Journal*, Policy Informatics (with E. Johnston), 2011

## AWARDS AND HONORS

---

- 2020 William Petak Award by the Section on Emergency and Crisis Management, American Society for Public Administration
- 2019 Distinguished Service Award, School of Public Affairs, Arizona State University
- 2018 Distinguished Diversity and Inclusion Award, School of Public Affairs, Arizona State University
- 2018 Arizona State University Team Leadership Academy IV, Metropolitan Informatics
- 2013 Distinguished Service Award, School of Public Affairs, Arizona State University
- 2009 Health Policy Researcher of the Year, "Incorporating policy criteria in spatial analysis" with A. Desai and R. Greenbaum, Health Policy Institute of Ohio, Columbus, OH
- 2007 Anne Larason Schneider Faculty Endowment for Community Research Awards (\$2,000), College of Public Program, Arizona State University, Phoenix, AZ
- 2007 Robert W. Backoff Research Award (\$1,000), Pre-Commencement Ceremony, John Glenn School of Public Affairs, Ohio State University, Columbus, OH, June 9

## PUBLICATIONS (\* underlined name indicates student)

---

My research has focused on policy or management problems. I regularly attend the Association of Public Policy Analysis and Management and sporadically attend the Public Management Research Association, Urban Affairs Association, or Digital Government. Substantively, I have focused on two policy areas: public health and welfare management and environmental justice and policy. Problems in these areas have challenged me, and I am deeply interested in leveraging advances in data, techniques, and technology to understand contemporary problems in these areas. I have actively learned, used, and supported non-traditional analytical approaches, such as agent-based modeling, qualitative comparative analysis, and network analysis. These approaches allow researchers to explore and understand the *interconnectedness* of multiple factors, variables, or actors as an underlying mechanism behind *emergent* social problems. I want to provide unique insights into these social issues from a complex adaptive systems perspective to inform public policy and management.

## || Public Health Management ||

I have been interested in managing public health and human services issues since I worked as a policy analyst for the Ohio Department of Health. I continued this line of research at ASU and expanded it to include studies of infectious disease outbreaks such as the 2009 swine flu outbreak in Arizona, the 2015 Middle East Respiratory Syndrome (MERS) outbreak in South Korea, and the 2020 COVID-19 outbreak. I approached these topics using system dynamics modeling and network analysis to derive insights for public health emergency response and policy.

## || Environmental Justice ||

Since joining ASU, I have spent more than a decade and a half working to understand how environmental injustice emerges in cities using agent-based modeling. Most recently, I have expanded my research program on green gentrification and green space inequality in U.S. cities based on qualitative comparative analysis and spatial analysis with my doctoral students.

I'm fascinated by data, tools, and technology, so when I get the chance, I write about how to use information technology to solve social problems. In the early days, I expressed this idea in the term policy informatics. More recently, it has expanded to include an interest in the impact of artificial intelligence on social life.

## TEACHING

---

### Courses Taught

#### *Arizona State University* (2007 – Current)

- PAF340 Contemporary Policy Challenges (Undergraduate, ASU Online)
- PAF505 Public Policy Analysis (Graduate, Face-to-Face & ASU Online)
- PAF509 Public Affairs Capstone (Graduate, Online)
- PAF540 Advance Policy Analysis (Graduate, Face-to-Face & Intensive)
- PAF541 Program Evaluation (Graduate, Intensive)
- PAF579 Public Policy Capstone (Graduate, Intensive)
- PAF591 Complexity in Public Policy & Management (Graduate, Face-to-Face & Intensive)
- SOS/SOLS/SHESC/PAF/SGSUP 494/591 Introduction to Fundamentals of Urban Sustainability Science (Seminar)
- PAF601 Advance Policy Seminar (Doctoral)

#### *Teaching Abroad*

- Environmental Justice and Agent-Based Modeling
- University of Bamberg, Germany (Undergraduate, Spring 2015)
  - Seoul National University, Korea (Graduate, Fall 2015)
  - Korea University, Korea (Undergraduate, Fall 2015)

#### **Doctoral Dissertation Committee**

- 2025 Jieun Kim, “Governing the Impact of Climate Change and Nature-based Solutions,” School of Public Affairs, Arizona State University, Chair (In Progress)
- 2024 Youngjae Won, “Connecting Disadvantaged Communities with Green Spaces: Toward Better Policy Design,” School of Public Affairs, Arizona State University, Chair (In Progress)
- 2023 Chan Wang, “Navigating Uncertainty: Understanding the Complexity of Rationales in State COVID-19 Policy Change Decisions,” School of Public Affairs, Arizona State University, Chair

*Assistant Professor, Jacksonville State University*

2022 Jun Ho Song, "User Modeling in Social Media: Analyses and Methods," Department of Data and Knowledge Engineering, Hanyang University, South Korea, Committee

2020 Michelle Stuhlmacher, "Patch to Landscape and Back Again: Land System Architecture Change and Environmental Consequences from the Local to Global Scale," School of Geographical Sciences and Urban Planning, Arizona State University, Committee

*Assistant Professor, DePaul University*

2019 Jake Nelson, "Policy Innovation for an Uncertain Future: Regulating Drone Use in Southern California Cities," School of Public Affairs, Arizona State University, Committee
