

Curriculum Vitae

Timothy L. Karr

Academic Appointments:

- 2011- Affiliate Professor (joint appointment with ASU)
Center for Proteomics
The Translational Genomics Research Institute (TGen)
Phoenix, AZ
- 2008 - Associate Professor Research
The Biodesign Institute
Centers for Infectious Diseases and Vaccinology and
Evolutionary Medicine and Informatics
Arizona State University
Tempe, AZ
- 2002-08 Reader in Biology
Department of Biology & Biochemistry
University of Bath Bath, England
- 2000-01 Visiting Professor, Kyoto Institute of Technology
Drosophila Genetics Resource Center
- 1996-03 Assistant Professor
Department of Organismal Biology and Anatomy
The University of Chicago
Chicago, IL 60637
- 1994-96 Research Associate (Assistant Professor)
Department of Organismal Biology and Anatomy
University of Chicago
Chicago, IL 60637
- 1987-94 Assistant Professor
Department of Biochemistry
University of Illinois
Urbana, IL 61801

Education:

- 1971-74 Associate of Arts
De Anza Junior College
De Anza, California
- 1974-76 Bachelor of Arts (Biochemistry and Molecular Biology)
University of California, Santa Barbara
- 1977-81 Doctor of Philosophy Chemistry
UC Santa Barbara (with Professor Daniel L. Purich)

Postdoctoral Training:

- 1981-84 Jane Coffin Childs Research Fellow
Department of Biochemistry and Biophysics
UC San Francisco (with Professor Bruce Alberts)
- 1985-87 Weingart Fellow
Department of Biochemistry and Biophysics,
UC San Francisco (with Professor Thomas Kornberg)

Honors and Awards:

- 2002-07 Wolfson-Royal Society Merit Awardee, University of Bath (*total award, £475,000*).
1997-98 Louis Block Fund, Principal Investigator. University of Chicago.
“Acquisition and Operation of a light microscopy and digital Imaging Facility” (*total award, \$251,699 USD*).
1999-00 Academic Technology Innovation. Principal Investigator. Project title, “Application and Development of a Biological Database for the CAVE” (*total award, \$251,699 USD*).
1990-94 Appointed Faculty Fellow, Neuronal Pattern Analysis, Beckman Institute for Advanced science and Technology, University of Illinois, Urbana, IL.
1991-94 IBM Research Board Award, Beckman Institute, University of Illinois, Urbana, IL.
1986-87 American Cancer Society Senior Fellowship, with Thomas Kornberg, University of California, San Francisco.
1984-86 Weingart Fellowship, with Thomas Kornberg, University of California, San Francisco.
1981-84 Jane Coffin Childs Memorial Fund for Medical Research Fellowship, with Bruce Alberts, University of California, San Francisco.
1980-81 Earl C. Anthony Graduate Research Fellow, with Daniel Purich, University of California Santa Barbara.

Invited Talks (selected):

Plenary/Keynote/International Symposia (and Organizer)

- 2011 Invited Speaker, University of Oslo, Natural History Museum, Oslo, Norway.
2011 Invited Speaker, Humboldt University Berlin, Institute of Theoretical Biology, Berlin, Germany
2010 Plenary Speaker, National Japanese Drosophila Genetics Resource Center, Kyoto, Japan.
2010 Invited Speaker, 11th International Symposium on Spermatology, Okinawa, Japan
2009 Invited Speaker, Molecular Andrology International Workshop, Giessen, Germany
2006 Plenary Speaker, Royal Entomological Society annual meetings, London, UK.
2007 Society for Integrative and Comparative Biology, Tempe, AZ. **Organizer** (S. Pitnick, co-Organizer) society-wide symposium entitled, “Evolutionary and Functional Genomics of Sperm, Sperm Storage and Fertilization”.
2006 Plenary Speaker, 10th International Symposium on Spermatology, Madrid, Spain.
2006 Society for Molecular Biology and Evolution, Arizona State University. **Organizer**, “Evolution of Spermatogenesis”.
2005 Keynote Speaker, International Workshop, “Sperm and seminal fluid: what males produce and how females respond”. Monte Verita, Switzerland.
2003 Plenary Speaker, 44th Annual Drosophila Research Conference, Chicago, IL.
2003 Invited speaker, Insect and Symbiosis Symposium, Tokyo, Japan.
2003 Invited speaker, 18th Annual European Drosophila Research Conference, Goettingen, Germany.
2003 Invited speaker, Gordon Conference on Fertilization and Activation of Development.

Departmental invited seminars (last 5 years)

- May 2012. "Sperm Systems Biology". Department of Integrative Biology, University of Colorado, Denver, CO. USA.
- Dec. 2011. "Why Sperm? A critical examination of paternal effects and the evolution of sex". Department of Biology, Emory University, Atlanta, GA. USA.
- Nov. 2011. "New frontiers in and new surprises from the sperm proteome". Natural History Museum, University of Oslo, Oslo, Norway.
- Nov. 2011. "Transkingdom sex and other tales of 'viral' infections, bacteria and the spermatozoa". Institute of Theoretical Biology, Humboldt Universitaat, Berlin, GDR.
- Oct. 2011. "Beyond fertilization: Sperm as conduits for rapid protein evolution" Department of Molecular Cell & Developmental Biology, UC Santa Cruz., Santa Cruz, CA.
- Nov. 2010. "Transkingdom sex and other tales of viral infections, bacteria and the spermatozoa". Department of Microbiology and Molecular Genetics, Michigan State University, East Lansing, MI.
- Oct. 2010. "Unraveling sperm function and evolution one sperm proteome at a time". Department of Molecular Biosciences, University of Kansas, Lawrence, KS.
- Dec 2009. "The 3 Kingdoms of Sperm". Molecular & Cellular Biology Colloquium, Arizona State University, Tempe, AZ.
- Feb 2007. "Functional genomics and evolution of the sperm proteome" Department of Molecular and Cellular Biology, University of Arizona, Tucson, AZ.
- Mar 2007. "Sperm- the ultimate Trojan Horse" New Mexico State University, USA.
- April 2007. "Wolbachia, sperm and fertilization- the ultimate symbiosis?" UC Merced, USA.

Outreach and Public Discourse:

Work from the laboratory has been published in the popular press including Discover Magazine, Science Digest, Royal Society Magazine and the American Naturalist. Published data has also appeared in all editions of "Developmental Biology, Gilbert, S., Sinauer Press, including the cover photo in the 2nd Edition), "The Molecular Biology of the Cell, Alberts, et al., Academic Press) text books, among others. Recent results and discoveries have been covered by both the popular and scientific press including:

- Gene evolution: How to teach an old gene a new trick, *Nature Reviews Genetics* 6, 166-166 (01 Mar 2005).
- Parasite infiltrates fruitfly research ***Nature*** **436**, 8 (7 July 2005)
- Cell biology: The secret life of sperm ***Nature*** **436**, 770-771.
- Parsch J, 2009 X Chromosome: Expression and Escape. **PLoS Genet** **5(11)**: e1000724. doi:10.1371/journal.pgen.1000724. A "Perspectives" piece written to highlight recent report in PLoS Genetics from our laboratories (see Vibranovski MD, Lopes HF, Karr TL, Long M (2009) Stage-Specific Expression Profiling of Drosophila Spermatogenesis Suggests that Meiotic Sex Chromosome Inactivation Drives Genomic Relocation of Testis-Expressed Genes. **PLoS Genet** **5(11)**: e1000731. doi:10.1371/journal.pgen.1000731).

Administrative:

- **Guest Editor**, Proceedings of the National Academy of Sciences 2010-12.
- **Editor, Faculty 1000**, Faculty Member (2007- present)
- **Associate Editor**, BMC Genomics (2012 - present)

Books edited:

The Molecular Basis of Pattern Formation. (D. Stocum and T. L. Karr, eds.). Oxford University Press, Oxford.

Grant Support

Current:

HHS-National Institutes of Health- R01 LM010730 (Co-I): "Computational Methods for Expression Image Analysis", 2011-2014.

HHS-National Institutes of Health R01- HG002516 (Co-I). "Computational Analysis of Gene Expression Pattern Images" 2007-2014.

Pending:

National Science Foundation- Principal Investigator. The role of paternal products during and following fertilization.

National Science Foundation- Co-Principal Investigator. "Evaluation of the influence of reservoir and vector host diversity on the contamination and propagation of food borne pathogenic bacteria in a complex ecological model".

HHS-National Institutes of Health- (R01) Principal Investigator. "Leveraging the mouse sperm proteome to develop immunocontraceptive vaccines".

HHS-National Institutes of Health- (R01) Principal Investigator. "Linking epididymal transcriptomes to the dynamics of sperm proteome maturation".

NASA Astrobiology: Exobiology and Evolutionary Biology, Institutional Principal Investigator (ASU/University of Hawaii). Project title, "A proteomic approach to the evolution of novel cell types in basal metazoans".

Past:

HHS-National Institutes of Health, Principal Investigator. "Detection of distribution of new genes in *Drosophila* phylogeny". Total award, \$71,167. Jan 1, 2009 to Apr 30, 2011.

National Institutes of Health, NRSA Fellowship Grant No. RO1 GM47962-01. Project Sponsor for Dr. Stephen Dorus . Project title: "Characterization of the human and mouse sperm proteomes". Funding period, 03/01/06 to 02/28/09. \$50,000/yr direct costs. Total award: \$148,000.

Biotechnology and Biological Sciences Research Council, United Kingdom. Principal Investigator. Project title, "The role of myosin and a tumour suppressor gene in Wolbachia

mediated cytoplasmic incompatibility". Funding period: Jan 15, 2005 – June 14, 2008. Total award, \$525,000 (USD equivalent).

Royal Society-Wolfson Merit Award. Principal Investigator. "Molecular analysis of reproductive failure in insects". Funding period: 06/01/02 to 05/31/07. Total award, \$750,000 (USD equivalent).

National Institutes of Health, NRSA Fellowship Grant No. 1 F32 HD08172-01/TK. Principal Investigator: **Timothy L. Karr** (for Rhonda Snook NRSA Award). Project title: "Biochemistry of Sperm in a Model System." Funding period, 3/01/97 - 2/28/00 (award terminated 6/30/98-Dr. Snook accepted a tenure-track faculty position at the University of Nevada, Las Vegas). Total award: \$81,920.

National Institutes of Health, Grant No. F32GM076913-01. Principal Investigator. Project title: "The molecular basis of cytoplasmic incompatibility in insects." Funding period, 4/01/94 to 7/31/96. \$70,000/yr direct costs. Total award: \$210,000.

National Science Foundation, Principal Investigator. Research Experience for Undergraduates Supplement (yrs 1,2). Total award: \$13,000.

National Science Foundation, Principal Investigator. Major Research Instrumentation Program. Project title: "Acquisition and Operation of a light microscopy and digital Imaging Facility". Funding period: 11/01/97 to 10/30/01. Total award: \$587,297.

National Science Foundation, Principal Investigator. Research Experience for Undergraduates Supplement, yr. 1. Total award: \$10,000.

National Science Foundation. Principal Investigator. Biological Infrastructure Program. Project title: "The role of sperm-egg interactions in reproductive isolation in *Drosophila*". Funding period: 06/01/99 to 05/31/2002.Total award: \$200,000

Binational Science Foundation (Israeli-U.S.). Co-Principal Investigator. "Sexual functioning of antibiotic-induced males of *Wolbachia*-infected parasitic wasps". Funding period: 09/01/98 to 08/30/01. Total award: \$93,323.

National Science Foundation, Principal Investigator. Project title, "Ecophysiology of heat mediated abatement of cytoplasmic incompatibility". Funding period: 5/1/97 to 4/30/01. Total award: \$240,495

National Science Foundation, Grant No. DCB-8802152. Principal Investigator. Project title: "Nuclear Migration and Early Zygotic Gene Action in *Drosophila*". Funding period, 6/15/88 to 6/15/91. \$70,000/year, total award: \$210,000.

National Science Foundation, (Co-PI with Andrew Belmont, Dept of Cell and Structural Biology, University of Illinois). Project title: "Acquisition of an Optical Sectioning Workstation". Funding period: 6/15/89 to 6/14/90. Total award: \$102,000.

National Science Foundation. Research Education for Undergraduates award, 1989. Principal Investigator. Funding period: 6/15/89 to /6/14/90. Total award: \$4,000.

National Science Foundation. Minority Opportunity Award, 1990. Principal Investigator. Funding period: 6/15/90 to 6/14/91. Awarded \$5,500. United States Department of Agriculture. Principal Investigator. Project title: "Cytoplasmic Incompatibility in Insects". Funding period: 7/1/91 to 6/30/94. Total award: \$210,000.

United States Department of Agriculture. Research grant AG 91-37302-6766, 1991. Project entitled, "Mechanism of Wolbachia-induced Cytoplasmic Incompatibility in *Drosophila*"

Louis Block Fund, Principal Investigator. University of Chicago. "Acquisition and Operation of a light microscopy and digital Imaging Facility". Total award: \$251,699.

Academic Technology Innovation. Principal Investigator. Project title, "Application and Development of a Biological Database for the CAVE". Funding period: 07/98 to 06/99. Total award: \$33,500.

Student and postdoctoral associates

Current:

PhD- (ASU)

Sheri Skerget, The Biodesign Institute, Arizona State University. (Expected degree date: Dec., 2013).

Past: Postdoctoral and Graduate Students-

Past Postdoctoral (University of Illinois, University of Chicago, University of Bath, UK)

-*Dr. Ben Heath, Ph.D.*, University of Dundee Scotland. (Current position: Research Officer, Oxford University, Oxford, UK.)

-*Dr. Ursula Gerike, Ph.D.*, University of Bern, Switzerland. (Current position: Research Officer, University of Bath, Bath, UK.)

-*Dr. Steve Dorus, Ph.D.*, The University of Chicago. (Current position: Associate Professor, Syracuse University)

-*Dr. Michael E. Clark*, Postdoctoral Fellow. (Current position: Assistant Professor, University of Rochester).

-*Dr. Cort Anderson* (1999-2001) (current appointment, Associate Professor, University of Idaho).

-*Dr. Olga Isaeenko* (1998-1999) postdoctoral Fellow. (Current position: Senior Research Scientist, University of Minnesota).

-*Dr. Kyoichi Sawamura* (1998-99) postdoctoral fellow. (Current position: Assistant Professor, University of Tsukuba, Tsukuba, Japan).

-*Dr. David Hoskens* (summer, 1999) visiting research scientist from the University of Zurich, Switzerland. (Current position: Professor, Exeter University).

-*Dr. Rhonda Snook*, NIH NRSA Fellow 1997-1998. (Current position, Senior Lecturer, University of Sheffield, Sheffield, UK.)

-*Dr. Scott O'Neill*, (1989-1991). Present position, Head of School of Life Sciences The University of Queensland Qld 4072 Australia.

Past Ph.D.

-*Peggy Grott-Delaney* (entered the Ph.D. program, received Master degree, June 1989)

-*Michael Graner* (Ph.D. in Biochemistry, 1993). Present position: Postdoctoral Research Associate, University of Arizona.

-*Lee Boyle* (Ph.D. in Biochemistry, 1992). Present position, Abbott Laboratories.

-*Wanlin Chang* (Ph.D. in Biochemistry, 1994). Present position, Unilever, Inc.

-*Hiroyuki Kose* (Ph.D. in Biochemistry, 1994). Present position, Postdoctoral fellow, Tokyo University.

-*Yuval Gottlieb*, Ph.D. (Visiting from the Hebrew University, Israel).

-*Julie Alipaz* (Ph.D. Committee on Evolutionary Biology)

-*Robin Carlson* (Ph.D. Organismal Biology and Anatomy, graduated June, 2000).

-*Zoe Veneti*, Ph.D. (visiting from the University of Crete, Greece).

-*Craig Lassy* (Ph.D. in Cell and Structural Biology, University of Illinois, Urbana-Champaign). Present position, Manager, Confocal and Digital Imaging Facility, The University of Chicago.

-*Randy Seys*, (entered Ph.D. program, received Master degree, June 1994). Present position, Pharm. D. program, University of Illinois, Chicago.

-*Robin Carlson* (entered Ph.D. program, received Master degree, August, 2000).

-*Julie Alipaz* (joint student with Chung-I Wu, Ph.D. received Jan. 2001). Current position, postdoctoral fellow, Stanford (with S. Palumbi).

-*Marta Babits*, Marie Curie trainee, University of Szeged, Hungary.

-*Elizabeth Wasbrough* (nee Parker). PhD, University of Bath, 2011.

Undergraduate (University of Chicago)

-*Jon Darbro*, Research Technician

-*Dimitry Tetin*, Undergraduate research assistant

- Justin Coffey*, NSF REU research assistant (summer 1999).
- Gregory Gurda*, NSF REU research assistant (summer 1999).
- Will Yang*, (M.D. University of Wisconsin, 2003). Undergraduate research (1996-1998).
- Shikha Garg*, (M.D., Chicago School of Medicine, 2002). Research technician (1997-98).
- Jonathan Darbro*. (Ph.D., UC Riverside, 2003). Undergraduate research (1998-99).
- Joshua Rosenau*, research assistant (summer 1998, REU student).
- Stephanie Hasan*, research assistant (summer 1996, Howard Hughes undergraduate).
- Jessica Cande* (1999-2001). Howard Hughes undergraduate researcher, summer 2000.
