G. Clinical Practice, Interests, and Accomplishments

Developed a High-Risk Clinic for patients with hereditary breast and ovarian cancer syndrome.
2007-Present

H. Research Interests

Personalized Medicine

Informed consent protocols for whole genome sequencing

Understanding the value of genetic counseling in genomic medicine

I. Research Grants Awarded

Principal Investigator	Educating Oncologists and their Staff about Cancer Genetics Issues- grant awarded by Mountain States Regional Genetics Network	July 1998
Co-Investigator	Risk Reducing Behaviors of Women at Risk for Breast/Ovarian Cancer- Funded by Better Than Ever. Arizona Cancer Center	July 2003
Co-Investigator	Biomarkers for Alzheimer's Disease: Defining Expert and Public Expectations- Funded by ASU Mayo Seed Grant	Nov. 2010-Dec 2011
