EDUCATION

Ph.D. – **Human Development and Family Studies** (2012) The Pennsylvania State University, University Park, PA.
Dissertation: *Examining Antecedents and Outcomes of Perceived Control.*
Advisors: Denis Gerstorf, PhD; Steven H. Zarit, PhD

M.S. – **Human Development and Family Studies** (2009) The Pennsylvania State University, University Park, PA.
Thesis: *Examining Cross-Domain Linkages Between Social Support, Control Beliefs, and Health.*

B.A. – **Brain and Cognitive Sciences; Clinical and Social Sciences in Psychology** (2007) University of Rochester, Rochester, NY.

PROFESSIONAL EXPERIENCE

2024 – present	Professor, Department of Psychology, Arizona State University, Tempe, AZ
2023 – 2026	Developmental Area Head, Department of Psychology, Arizona State University, Tempe, AZ
2018 – 2024	Associate Professor, Department of Psychology, Arizona State University, Tempe, AZ
2013 – 2018	Assistant Professor, Department of Psychology, Arizona State University, Tempe, AZ
2012 – 2013	Post-Doctoral Researcher, Institute of Psychology, Humboldt University, Berlin, Germany
2011 – 2013	Visiting Research Fellow, German Institute for Economic Research (DIW Berlin), Berlin, Germany
2007 – 2012	Graduate Research Assistant: Department of Human Development and Family Studies, The Pennsylvania State University, University Park, PA

RESEARCH INTERESTS

- Applying a life-span developmental approach to studying adult development and aging
- Resilience to major life stressors
- Development in midlife
- Psychosocial factors that promote healthy aging
- Examining antecedents, correlates, and outcomes of perceived control
- Longitudinal research and event occurrence methodology

HONORS AND AWARDS

- Gerontological Society of America (GSA) Fellow, 2022
- Society for the Study of Human Development Early Career Award, 2019
- GSA Margret M. and Paul B. Baltes Foundation Early Career Contributions Award in Behavioral and Social Gerontology, 2018
- GSA Richard Kalish Innovative Publication Award in Behavioral and Social Gerontology, 2018
- American Psychological Association (APA) Division 20 Springer Early Career Achievement Award in Research on Adult Development and Aging, 2017
- NIH OBSSR Matilda White Riley Early Stage Investigator Paper Award, 2017
- Association for Psychological Science Rising Stars, 2015
- GSA Emerging Scholar and Professional Organization (ESPO) Interdisciplinary Paper Award, 2009
- GSA Behavioral and Social Sciences (BSS) section Pre-Dissertation Award, 2009
- GSA BSS section Student Travel Award, 2010
- Invited member, Kappa Omnicron Nu (KON) Honor Society
- Survey Research Center Summer Internship Program at the University of Michigan, 2008
- Induction into Phi Theta Kappa Academic Honor Society, Spring 2005

Psychosocial risk and resilience mechanisms underlying diversity in midlife health, well-being, and cognition
Our objective is to use the HRS family of studies to identify the intergenerational, financial, and health behavior mechanisms driving diversity in midlife development of health, well-being, and cognition and shed light on individual-level characteristics that can promote resilient outcomes and inform future prevention, policy, and intervention efforts.

Person-centered approaches to assess effects of the FBP on trajectories of multidimensional outcomes as well as mediators and moderators of effects up to 15 years later
This project will apply state-of-the art methods, incorporating person-focused approaches and multidimensional perspective, to identify new findings concern which bereaved children or adolescents are more or less likely to benefit from the BFP program in terms of reduced mental health problems and disorders and prolonged brief up to 15-years later.

Role: co-Investigator
