PROGRAM DEVELOPMENT – YATA

Co-Founder, Director 2011 – 2017
Youth Advancement Through Athletics (YATA) – Lansing, MI

YATA is multi-faceted youth development program designed to reduce recidivism and promote academic achievement among adjudicated youth in Ingham County. From 2011 to 2017, over 75 individualized, strength-based interventions for youth attending a court-run high school were designed and executed. A comparable number of undergraduate students were trained to serve as mentors and staff members. The innovative program design integrated athletics, mentoring (with MSU undergrads), community outreach, and career driven opportunities to provide participants with a strength-based, holistic intervention. MSU undergraduate student mentors enroll in a corresponding course based out of the Psychology Department. I, along with the contribution of my mentors and co-founder, designed the course to educate students in criminological theory, the history and key operations of the juvenile justice system, adolescents risk/needs assessments, and racial disparities in the juvenile justice system. As the co-founding director, I was responsible for securing funding, staff selection, supervision, and training,

Funding. Capital Region Community Foundation grants and Ingham County Circuit Court partnership
Awards. Resolution - Granted by Ingham County Board of Commissioners
