RESEARCH INTERESTS

Power, Social Hierarchies, Prosocial Behavior

SOCIETAL IMPACT STATEMENT

The main objective of my research and teaching is to have a positive impact on society. Through my research, I aim to discover and develop novel insights within the social hierarchy and prosocial behaviors literatures, with a particular interest in when and why power is used for good. Through my teaching, I seek to inspire students to become the types of leaders that use their power to create a positive impact on society. As a result, both through my research and teaching, I hope to influence rising generations to be better leaders.
