COMMUNITY-ENGAGED RESEARCH OUTPUT

1. Czerniawski, T., Salon, D., **Jamme, H.-T.**, Eiris, R., Wiers, H.* (2024), *Bicycling in Tempe: A multimedia and interactive experience*. Exhibition open to the public on April 15th and April 29th, 2024, at the ASU's Walton Center for Planetary Health in Tempe, AZ. Final output of a research project aimed at replicating the bicycling experience, using a mix of old and new technologies (virtual reality, digital twin, mapping, video, etc.)

Direct impacts included (selected): (i) Creation of a company called StreetCounts, LLC. to market a new bicycle counting technique developed for the project; (ii) Assistance to a group of consultants to create an innovative community engagement activity centered on a bicycling in VR experience piloted at the exhibition; (iii) Presentation of the multimedia experience to the City of Tempe, AZ, Transportation and Sustainability group in April 2025; (iv) Exhibition contents showcased at a meeting of the Sustainability and Economic Vitality (SEV) Council Committee at Tempe's City Hall in June 2024; (vi) Several talks about the event in various occasions.
