### **Active Research Projects**

#### **Grants (Funded/Ongoing)**

- March 2026- June 2026
- *Principal Investigator*, “Understanding AI Adoption in Social Work Education and Practice: A Mixed-Methods Study”
  - Grant funding agency: Arizona State University School of Social Work (SSW)
  - Total funding: \$29,718
  - Funding opportunity title: Scholarly Opportunities for Advancing Research (SOAR)
  - REC/RID/IIA: In-University Grant, Not Applicable
- October 2025- June2026
- *Principal Investigator*, “AI-Integrated Social Work Curriculum: A Stakeholder Driven Approach”
  - Grant funding agency: The Learning Engineering Institute, Arizona State University
  - Total funding: \$8,000
  - Funding opportunity title: Learning Engineering Principled Innovation Grant Program
  - REC/RID/IIA: In-University Grant, Not Applicable

#### **Research Projects Without External Funding**

- January 2025 - present
- *Principal Investigator*, “Community Resources Engine”
  - <https://resource-engine.onrender.com>
  - Led the design and development of a web-based, searchable directory to address gaps in access to mental health and substance use treatment resources across Arizona and other states. The platform enables need-based searches by population served, treatment modality, and service characteristics, serving as a foundation for future evaluation and external funding.
- August 2025-present
- *Principal Investigator*, “Integrating AI LLMs in Social Work Education: Building Data Analytics and Business Solution Skills”
  - Grant funding agency: no external finding
  - I worked with undergraduate social work students to develop a community resource referral search engine using an AI LLM. Through this project, we explored how AI can enhance professional skills in data analytics and business

solutions that are directly applicable to social work practice.
