

DAVID J. SAILOR, Ph.D.

School of Geographical Sciences and Urban Planning
Arizona State University

Phone: (480) 965-4082
Email: David.Sailor@asu.edu

LEADERSHIP EXPERIENCE:

- **School Director (Jul 2022-present)** of the School of Geographical Sciences and Urban Planning (SGSUP) at Arizona State University. SGSUP includes 31 tenure-related faculty, 8 teaching faculty, numerous research faculty & postdocs, and 22 staff (5 direct-reports). It is home to five research centers (SPARC, UCRC, KER, SW-IFL, and ARCHES) and one recharge center (GRS). The unit includes approximately 900 undergraduate majors (75% online), 90 master's degree students, and 50 doctoral students across 5 undergraduate and 5 graduate degree programs. The Director is the unit's chief administrative officer, responsible for efficient execution of university policies, overall leadership, and representing the unit within the college, the university, and external constituencies. The Director manages the school's academic programs, strategic planning, personnel, and budget (currently > \$2M/year, exclusive of tenure-track faculty salaries), and also oversees management of faculty research and foundation accounts. SGSUP currently has more than \$9.5M annually in research expenditures (>\$300k per tenure-track faculty member).
- **Founding Director (Oct 2016-Jun 2022)** of the Urban Climate Research Center (UCRC) at Arizona State University, with 38 faculty affiliates across 7 schools, and an establishment budget of \$400k. Primary responsibilities: (1) develop interdisciplinary teams to pursue large-scale initiatives and funding opportunities; and (2) promote faculty affiliates and their accomplishments. Established a Foundation account to ensure perpetual resources to run the annual lecture series.
- **Chair, ASU Senate Research and Creative Activities Committee (Aug 2020- May 2021).** Responsible for coordinating response to Requests for Consultation (RFCs) that come to our committee, addressing a wide range of research challenges across the university.
- **Co-Lead (Sep 2016-Jul 2018)** for the Knowledge Enterprise (KE) Cities Campaign. Convened thematic area working groups representing 100+ faculty across the university to develop a strategic plan for moving forward with large-scale cities-focused initiatives at ASU.
- **Founding Director (Sep 2009-Dec 2015)** of the Green Building Research Laboratory at Portland State University, managing an annual research budget of \$300-400k and a laboratory manager. Oversaw research and outreach of our laboratory, including 4 core faculty associates as both a fee-for-service lab and as a shared user facility within the university. Secured a \$1M investment from the US Department of Energy and established the GBRL as an "Oregon-BEST lab" which facilitated our work with start-up companies contributing to their success.
- **Director (Sep 1999-Dec 2002)** of the US Department of Energy's Southcentral regional office of the National Institute for Global Environmental Change (NIGEC) at Tulane University, managing a \$1.2M annual research budget, and two staff. Developed and managed RFP process, allocating and managing research projects led by 8-10 faculty across multiple institutions from Arkansas, Colorado, Louisiana, New Mexico, Oklahoma, and Texas.

EDUCATION:

Ph.D.	Mechanical Engineering, University of California, Berkeley	1993
	<i>Thesis advisors: Drs. Hashem Akbari, Van P. Carey (chair), Art Rosenfeld</i>	
	<i>Dissertation: "Role of Surface Characteristics in Urban Meteorology and Air Quality"</i>	
M.S.	Mechanical Engineering, University of California, Berkeley	1990
B.S.	Mechanical Engineering, University of Washington, Seattle	1988

POSITIONS HELD:

School Director (2022-present), School of Geographical Sciences and Urban Planning, Arizona State University

Professor (2016-present), School of Geographical Sciences and Urban Planning, Arizona State University

Director (2017-2022), Urban Climate Research Center, Arizona State University

Senior Global Futures Scientist (2016-present), Julie Ann Wrigley Global Futures Laboratory (GFL), Arizona State University.

Member, Graduate Faculty, (2016-present), School of Sustainable Engineering and the Built Environment, Arizona State University.

Visiting Research Professor, (2016-2018), at Portland State University.

Director, Green Building Research Laboratory (2009-2015), Portland State University

Professor (2008-2015), Dept. of Mechanical Engineering Portland State University

Associate Professor (2003-2008), Dept. of Mechanical Engineering Portland State University

Director South Central Regional Center of the National Institute for Global Environmental Change, at Tulane University (1999- 2002). Associate Director (1997-1999).

Associate Professor (1999-2003), Dept. of Mechanical Engineering, Tulane University

Assistant Professor (1993-1999), Dept. of Mechanical Engineering, Tulane University

SUMMARY OF RESEARCH:

My research interests are at the intersection of climate and the built environment. I address challenges related to indoor and outdoor exposure to air pollution and extreme heat with an emphasis on at-risk and under-resourced communities. My focus is on climate solutions—developing, testing, and deploying technologies, strategies and policies. I have established an international research reputation with over 120 peer-reviewed publications, an h-index of 48 (Scopus), more than 8,900 citations (Scopus), receiving best paper awards from the journal *Building and Environment* (IF=6.456) for 2017 and *Energy and Buildings* (IF=5.879) for the decade 2008-2017, giving over 70 invited lectures, and helping to secure over \$34.25M of external research funds (> \$24.75M as PI). I was awarded the 2023 Helmut E. Landsberg Award from the American Meteorological Society for “*outstanding contributions to the urban climate community.*”

PUBLICATIONS IN REVIEW OR PREPARATION:

Anand, J., Alhazmi, M., and **D.J. Sailor**, 2023^{TBD}. “Achieving net negative anthropogenic heat release from buildings”, Submitted to *Energy and Buildings*, Oct.

Crank, P.J., C.R. O’Lenick, O.V. Wilhelmi, and **D.J. Sailor**, 2023^{TBD}. “Socio-demographic determinants of extreme heat and ozone risk among older adults in three Sun Belt cities,” submitted Journal of Gerontology: Medical Sciences, JGMS-2023-RES-0715, September. Socio-demographic determinants of extreme heat and ozone risk among older adults in three Sun Belt cities

Hashemi, S., A. GhaffarianHoseini, N. Naismith, S. Barmomanesh, D. Sailor, U. Berardi 2023^{TBD}, Summer Outdoor Thermal Risk Area Mapping on a University Campus in Auckland, New Zealand, submitted to *Building and Environment*, BAE-D-23-03902, September.

Helmrich, A., B. Gerber, M. Gall, P. Horton, M. El Asmar, D.J. Sailor, M. Neveu, R. El Kassis, G.F. Fagliarone, N. Kuvvada, H. Sanboskani, K. Vemulapalli, A. Vogel, Y. Yu, D.D. White, 2023^{TBD}, “Developing Long-term Risk & Resilience Management Strategies for Physical Asset and Critical Infrastructure Portfolios”, submitted to *Climate Risk Management*, June 2023.

Krebs, L., Anand, J., Baniassadi, A., **D.J. Sailor**, E.S. Krayenhoff, A.M. Broadbent, and M. Georgescu, 2022^{TBD}. Passive survivability of manufactured homes under changing climate: A case study for Phoenix AZ. In preparation.

- Liu, S., **D.J. Sailor**, X.S. Fang, R.Z. Wu, 2023^{TBD}. The role of outdoor courtyard design variables in microclimate performance: A review”, submitted to *Sust. Cities and Society*, April.
- Sailor, D.J.**, E. Wentz, J. Anand, M. Alhazmi, E. Aguilar, and A. Mehner, 2023^{TBD}. “Avoided Residential Air Conditioning Energy Costs Associated with Cooling the City: A Case Study for Phoenix Arizona USA”, in preparation, journal TBD.

INVITED PRESENTATIONS, WEBINARS AND KEYNOTES:

81. **Sailor, D.J.**, 2023. Opportunities for Collaboration-an overview of ASU’s climate and health research portfolio, presented to the Mobility and Falls Center at Harvard Medical School, Oct 30.
80. **Sailor, D.J.**, 2023. Invited presentation to Institut Pascal, Managing extreme heat in cities through use of passive radiative cooling materials applied to built infrastructure, University of Clermont-Auvergne , 15, June, Clermont-Ferrand, FRANCE.

79. **Sailor, D.J.**, 2023. Invited presentation for Earth Day event, “Buildings and the urban thermal environment: can new buildings cool cities?”, University College London, Institute for Environmental Design and Engineering (virtual), 125 registrants, London UK, 26, Apr.
78. **Sailor, D.J.**, 2023. Invited Workshop Speaker. Challenges and Opportunities for Including Anthropogenic Emissions in Urban Data Bases, presented at the Workshop on Integration of WUDAPT with Modeling Systems, NCAR Foothills Laboratory (virtual), Boulder CO, 13 Jan.
77. **Sailor, D.J.**, 2022. Invited Keynote. On the front lines of extreme heat: experimenting with innovative strategies and technologies for cooling the hottest US cities, Comfort at the Extremes conference, September 5-6, Edinburgh, UK.
76. **Sailor, D.J.**, 2022. Invited presentation to the Impact of Sustainable Buildings in Arid Environment on the Indoor and Outdoor Air Quality Workshop, co-sponsored by Qatar Environment & Energy Research Institute and the Qatar National Research Fund, The interconnectedness of urban indoor and outdoor climates, Doha QATAR, 17-19 May.
75. **Sailor, D.J.**, 2022. Invited presentation to the Energy Technologies Area, Urban Systems Group, Lawrence Berkeley National Laboratory, Barriers and Opportunities for Urban Cooling Strategies: a case for living laboratory experiments, (virtual) Berkeley, CA, Apr. 8.
74. **Sailor, D.J.**, 2022. Invited Panelist, “Would your building perform satisfactorily during a heatwave or power-blackout?” ASHRAE Winter Conference, Technical Committee 4.2 Climatic Information, co-sponsoring committee TC2.8 Building Environmental Impacts and Sustainability, Las Vegas NV., 29 Jan to 2 Feb.
73. **Sailor, D.J.**, 2021. Invited Keynote, “Radiative Cooling Approaches for Improved Building and Urban Thermal Environments”. Third International Conference of Chemical, Energy and Environmental Engineering ICCEEE 2021, July 27-28 (virtual) Alexandria, EGYPT,
72. **Sailor, D.J.**, 2021. Invited Panelist, Climate: Food, Energy & Water Nexus as a culminating panel discussion for the “City as Lab” NSF Research Coordination Network, Jun 4.
71. **Sailor, D.J.**, 2021. Invited webinar lecture “The City as a Laboratory for Exploring Heat Mitigation Strategies”, for the “City as Lab” NSF Research Coordination Network, Apr 2.
70. **Sailor, D.J.**, 2021. Invited Distinguished Speaker series, Department of Mechanical Engineering at the Colorado School of Mines, Urban Cooling Technologies: Breaking down barriers to widespread implementation, Mar. 23 (virtual) Golden CO.
69. **Sailor, D.J.**, 2021. Invited presentation to Portland State University Sustainability Awareness speaker series, Toward Sustainable Future Urban Thermal Environments, Mar. 8 (virtual) Portland OR.
68. **Sailor, D.J.**, 2021. Invited presentation to the Sustainability Institute at Ohio State University, series on Smart and Resilient Communities, “Facilitating urban cooling technology innovation and adoption through living laboratory experiments,” Mar 3 (virtual), Columbus, OH.
67. **Sailor, D.J.**, 2020. Invited Keynote, 54th Architectural Science Association (ASA) conference, “Heat Resilience of Residential Buildings in a Changing Climate”, (virtual) Auckland, NEW ZEALAND, Nov 25-28.
66. **Sailor, D.J.**, 2020. Invited presentation, USC School of Architecture, “Urban Heat Mitigation: bridging research, design, and urban environmental planning”, Nov. 18 (virtual) Los Angeles CA.
66. **Sailor, D.J.**, 2020. Invited presentation at 3M Tech Forum. “Quantifying the benefits of recent innovations in products for cooling the urban environment,” 30, Oct., (virtual) Minneapolis MN.
65. **Sailor, D.J.**, 2020. Invited presentation to the Cool Building Solutions Collaborative, LBNL. “Benefits of innovative radiative cooling technologies for buildings and the urban environment, Sep. 30 (virtual), Berkeley, CA.
64. **Sailor, D.J.**, 2020. Invited panelist: MIT InnoTherm, International Colloquia on Thermal Innovations, Topic: Passive daytime radiative cooling materials with Ronggui Yang, Yuan Yang, and Junichiro Shiomi, May 6.

63. **Sailor, D.J.**, 2019. Invited Keynote: “Moving beyond UHI: is the urban heat island concept too limiting to solve urban climate challenges?”, at the 5th International Conference on Countermeasures to Urban Heat Islands (IC2UHI), Hyderabad INDIA, Dec 2-4.
62. **Sailor, D.J.**, 2019. Panelist: UHI-countermeasure technology gaps panel at IC2UHI 2019, Hyderabad INDIA, Dec 2-4.
61. **Sailor, D.J.**, 2019. Invited presentation at the University of New South Wales, “Implications of urban photovoltaic energy production for the local urban climate and building thermal performance”, Sydney AUSTRALIA, Dec 6.
60. **Sailor, D.J.**, 2019. Invited presentation to the University of Adelaide Heat & Habitat in Cities Symposium, “Using microscale and mesoscale atmospheric models to explore the spatial footprint of heat mitigation strategies.” Adelaide AUSTRALIA, Dec 9-10, 2019.
59. **Sailor, D.J.**, 2019. Invited workshop participant (sustainable infrastructure), 2nd NSF Sustainable Smart Cities International Workshop, Cairo, EGYPT. Organized by University of Alabama, Birmingham and Alexandria University, Egypt. June 11-13.
58. **Sailor, D.J.**, 2019. “Urban climate mitigation efforts for local and global benefit,” invited presentation to the Board of the Edwards Mother Earth Foundation (EMEF), Tempe, AZ, Jan 19.
57. **Sailor, D.J.**, 2018. “Heat resiliency of residential buildings during extreme events,” invited presentation to the Building, Civil and Environmental Engineering Department at Concordia University, Oct. 25.
56. **Sailor, D.J.**, 2018. “Technology, urban climate, and the future of urban built environments,” invited presentation at the Panel on Urbanization, Energy, and the Built Environment, National Renewable Energy Laboratory, Aug. 14.
55. **Sailor, D.J.**, 2018. “Urban climate modeling methodology,” presented as part of Los Angeles Urban Cooling Collaborative (LAUCC) Webinar - NUCFAC LA County Modeling Results, organized and presented by TreePeople environmental nonprofit, March 28, ~50 participants, archived at treepeople.org/urbancooling.
54. **Sailor, D.J.**, 2017. “Interactions between urban infrastructure and local climates, presented as an invited instructor at the Urban Climate Summer School at the University of Bucharest, ROMANIA, Aug 22.
53. **Sailor, D.J.**, 2017. “Exploring the Role of Buildings in the Urban Climate, invited presentation at the CAP-LTER All-Scientists Meeting, January 13.
52. **Sailor, D.J.**, 2016. “Walmart Hayden Meadows Case Study”, invited panelist for ICSC CenterBuild Conference, Scottsdale, AZ, Dec 1., 2016.
51. **Sailor, D.J.**, 2016. “Urban Climate Research: understanding the problems leads to better solutions,” invited presentation for the Urban Climate Institute, hosted by University of Minnesota as part of the NSF-funded Urban Heat Island Research Coordination Network, July 12-13.
50. **Sailor, D.J.**, 2016. “Indoor-outdoor atmospheric coupling and exposure risk to extreme heat and poor air quality during heat waves”, invited presentation for the School of Sustainable Engineering and Built Environment, ASU, Oct 25, 2016.
49. **Sailor, D.J.**, 2016 “Urban Heat Islands: understanding causes and concerns leads to better solutions”, invited presentation at the Urban Heat Island & Extreme Heat workshop hosted by Climate Resolve and Mayor Eric Garcetti’s Office of Sustainability and Chief Resilience Officer, July 7, 2016.
48. **Sailor, D.J.**, 2015 “The Role of Anthropogenic Heat and Moisture Emissions in the Urban Climate System”, invited presentation to Centre de Thermique de Lyon (CETHIL), Universite Claude Bernard Lyon, July 17, 2015.
47. **Sailor, D.J.**, 2015 “Improving representation of anthropogenic heating for atmospheric models”, presented at the 3rd meeting of the Urban Climate Institute (NSF-RCN), Athens, GA, July 6, 2015.
46. **Sailor, D.J.**, 2015 “Understanding Urban Heat as a first Step toward Mitigating its adverse Health Consequences,” Invited panel presentation at the 7th Annual Northwest Environmental Health Conference: Bridging Research, Practice, and Policy. Portland, OR April 17.

45. **Sailor, D.J.**, 2015. “The Role of Anthropogenic Heat and Moisture Emissions in the Urban Climate System”, seminar in the Department of Building, Civil, and Environmental Engineering, Concordia University, March 30.
44. **Sailor, D.J.**, 2015. “Buildings and the Urban Climate.” Seminar at Oak Ridge National Laboratory, Oak Ridge, TN, February.
43. **Sailor, D.J.**, 2015. “Understanding Urban Climate Challenges, Drivers and Solutions: from anthropogenic heating to urban surface modifications.” Seminar at the School of Geophysical Studies and Urban Planning at Arizona State University, Phoenix, AZ, February.
42. **Sailor, D.J.**, 2015. Invited Panelist. Sustainable Cities Network Special Session at the American Meteorological Society Annual Meeting, Phoenix, AZ, January.
41. **Sailor, D.J.**, 2014. “Mitigating Urban Heat: Are there any simple solutions?”, a seminar presented to the Physics Department at Portland State University, April 14.
40. **Sailor, D.J.**, 2014. “Heat Island Mitigation in the Broader Context of Urban Sustainability,” presented at Arizona State University, Global Institute of Sustainability, April 2.
39. **Sailor, D.J.**, 2014. Invited Keynote: “Designing Built Environments for Improved Urban Climate Outcomes,” presented at the US-Korea Conference of the Korean-American Scientists and Engineers Association, UKC2014, San Francisco, Aug 8.
38. **Sailor, D.J.**, 2013. “Urban Heat Island Mitigation”, invited presentation at the NSF RCN Workshop on Urban Climate, St. Paul, MN, July 31.
37. **Sailor, D.J.**, 2012. “Exploring the energy and environmental impacts of sustainable roofing options,” presented at the University of La Rochelle, Department of Civil and Mechanical Engineering, La Rochelle, France, June 27, 2012.
36. **Sailor, D.J.**, 2012. “City scale integrated sustainable energy technologies,” invited presentation and panelist at the ASME Integrated and Sustainable Building Equipment and Systems Roundtable, New York, May 4.
35. **Sailor, D.J.**, 2012. “Causes, Effects, and Mitigation Opportunities for the Urban Heat Island,” invited presentation at Drexel’s Academy of Natural Sciences bicentennial sustainability series, April 17.
34. **Sailor, D.J.**, 2012. “Proving Passive House Performance- two case studies from Portland Oregon”, invited presentation and panelist for the Passive House NorthWest conference, March 2, Portland.
33. **Sailor, D.J.**, 2012. “Green Building and Urban Heat Island Mitigation: a new look at old sustainability strategies,” a webinar presented for Climate Communities for an audience of 100+ urban planners and city sustainability directors, Jan. 26.
32. **Sailor, D.J.**, 2011. "Energy and Weather Interactions in the Built Environment - exploring options for urban energy sustainability," invited presentation at the International Workshop on Urban Weather and Climate: Observations and Modeling, co-sponsored by the Chinese Meteorological Society and the American Meteorological Society, Beijing, 12-15 July.
31. **Sailor, D.J.**, 2011. “Our Impact on the Indoor and Outdoor Atmospheric Environments”, invited presentation at the Town Hall Meeting: *Impact of Human Occupancy at the 2011 AMS Annual Convention*, held at the American Meteorological Society’s Annual Meeting, Seattle, January.
30. **Sailor, D.J.**, Wamser, C., and Rosenstiel, T., 2010 “Solar PV and Green Roof Integration – Performance and Design Considerations,” an invited presentation at the 8th Annual Green Roof & Wall Conference – Cities Alive, Vancouver Canada, December.
29. **Sailor, D.J.**, 2010. “Energy Sustainability in the Built Environment,” invited plenary presentation for the American Society of Mechanical Engineers (ASME) Energy Sustainability Conference, 2010, Phoenix, May 20. Room capacity 1800, approximately 900 in audience.
28. **Sailor, D.J.**, 2010. Invited Panelist – “Future Directions on Greening the Green Roof System for Climate Change – Embodied Energy, Renewables, Thermal Efficiency, and Sequestration,” with David Tilley and Paul Mankiewicz. An Expert Panel Discussion at the 8th Annual Green Roof & Wall Conference – Cities Alive, Vancouver Canada, December.

27. **Sailor, D.J.**, 2010. “Energy Performance of Green Roofs”, Webinar presentation for the US EPA Heat Island Reduction Initiative Program. Approximately 200 attendees. June 8.
26. **Sailor, D.J.**, 2010. “Energy Performance of Ecoroofs: the role of the roof in affecting building energy and the urban atmospheric environment”, Featured Speaker, Ecoroof Portland, 2010, organized by Portland Bureau of Environmental Services, Portland, Oregon, March 12.
25. **Sailor, D.J.**, 2009. “Anthropogenic Heat and Moisture Emissions in the Urban Environment,” an invited plenary presentation at the 7th International Conference on the Urban Climate ICUC-7, Yokohama, Japan, June 29-July 3, 2009.
24. **Sailor, D.J.**, 2009. “The Green Building Research Laboratory: Providing resources and tools for improving the built environment”, invited presentation at the 2009 Forest Service Sustainable Operations Summit - Leading By Example: Toolkit for Success, October 27-29, 2009, Robert Duncan Plaza, Portland, Oregon.
23. **Sailor, D.J.**, 2009. “The Energy and Environmental Effects of Vegetated Rooftops”, presented as part of the Center for Urban Environmental Research and Education (CUERE) seminar series, University of Maryland, Baltimore County, 9 October.
22. **Sailor, D.J.**, 2009. “Hot and Crowded: Engineering and Urban Design Solutions for a Rapidly Urbanizing World”, lecture presented as part of the Maseeh College of Engineering and Computer Science (MCECS) Alumni Lecture as part of Alumni Weekend, 7 October.
21. **Sailor, D.J.**, 2009. “The Urban Heat Island”, an invited presentation at the Sustainability in the Urban Built Environment, part of the Summer Sustainability Series (summersustainabilityseries.org), Portland, OR, June 25.
20. **Sailor, D.J.**, 2009. “Human response to, and impact on episodes of poor air quality and extreme heat,” an invited presentation as part of the Coupled Human And Natural Systems (CHANS) Symposium at the annual meeting of the International Association of Landscape Ecologists, April 12-16, Snowbird.
19. **Sailor, D.J.**, 2008. “Measurements and Modelling of the Urban Heat Island Effect – the role of anthropogenic emissions,” invited presentation at the 2nd Earth Observation Workshop, Hong Kong Polytechnic University, May 20-21.
18. **Sailor, D.J.**, 2008. “Energy and Urban Climate Benefits of Green Roofs”, invited presentation at the World Green Roof Congress, London, September 17-18.
17. **Sailor, D.J.**, 2007. “Green Roof Research at Portland State University,” invited seminar at the Houston Advanced Research Center, Houston, Dec 6.
16. **Sailor, D.J.**, 2007. “Feedback Mechanisms in the Urban Climate, Air Quality, and Human Response System,” invited seminar presented in conjunction with a workshop on Coupled Natural Human Systems, sponsored by the Ecosystems, Health, and Built Environment interdisciplinary research initiative at the University of Utah, Salt Lake City, Nov 30.
15. **Sailor, D.J.**, 2007. “Heat Transfer Processes in the Urban Environment – The Urban Heat Island”, invited seminar presented to the Department of Mechanical and Aerospace Engineering, Arizona State University, Phoenix, Apr. 23.
14. **Sailor, D.J.**, 2006. “The Urban Heat Island - Causes, effects, and potential for mitigation,” invited presentation at the Cooling our Communities Workshop, sponsored by ICLEI (Local Governments for Sustainability, www.iclei.org), Miami, Oct 30.
13. **Sailor, D.J.**, 2006. “Mitigation of Urban Heat Islands – recent progress and future prospects”, invited presentation at the Sixth Symposium on the Urban Environment, American Meteorological Society, Atlanta, January.
12. **Sailor, D.J.**, 2005. “Portland’s Homemade Weather – the urban heat island”, invited presentation as part of the Geography Department seminar series, Portland State University, Oct. 12.
11. **Sailor, D.J.**, 2004. “Causes, Effects, and Mitigation of the Urban Heat Island,” invited presentation to the Portland City Club, Growth Management and Environment Committee, March 4.
10. **Sailor, D.J.**, 2002. “Developing Improved Load Forecasting Tools,” invited presentation to Southern Company Load Forecasting group, Birmingham, August 20.

9. **Sailor, D.J.**, 2002. “Urban Heat Island Research at Tulane University”, invited presentation to the Houston Galveston Area Council (HGAC), Cool Communities Committee, July 11.
8. **Sailor, D.J.**, 2002. “Atmospheric Modeling of the Urban Environment: Applications in Electric Utility Load Forecasting,” invited presentation to the Mechanical Engineering Department, Portland State University, Portland, Apr. 30.
7. **Sailor, D.J.**, 2002. “Urban Transportation Systems and the Environment: Local and Global Consequences,” invited presentation as panelist for *Gridlock – A forum on regional transport and sustainable development*, Sponsored by the League of Women Voters, Metropolitan Neighbors, the Sierra Club, and Tulane University, Feb 26
6. **Sailor, D.J.**, 2002. “Improving Electric Utility Load Forecasting through Atmospheric Modeling Enhancements,” invited presentation to the Mechanical Engineering Department, Vanderbilt University, Nashville, Feb 25.
5. **Sailor, D.J.**, 2002. “The Urban Heat Island Phenomenon: Causes, Impacts, and Potential for Mitigation,” invited presentation to the EPA’s 5th State and Local Climate Change Partners’ Conference, Annapolis, Nov. 21.
4. **Sailor, D.J.**, 2002. “Urban Heat Islands: Opportunities and Challenges for Mitigation and Adaptation”, invited Plenary presentation, North American Urban Heat Island Summit, Toronto, May 1.
3. **Sailor, D.J.**, 2000. Invited Keynote: “Regional Climate Modeling for Climate Change Impact Assessment,” 11th International Global Warming Conference, Boston, May 2000
2. **Sailor, D.J.**, 2000. "Regional Climate Change Issues and the Role of NIGEC," invited presentation to the Department of Energy's Global Change Education Program summer student orientation, June.
1. **Sailor, D.J.**, 1996. "Energy and Climate Interactions", invited talk, Lawrence Berkeley National Laboratory, Energy and Environment Division, May 1996.

CONFERENCES, DATASETS AND OTHER PRESENTATIONS:

123. Crank, P. C. O’Lenick, A. Baniassadi, **D.J. Sailor**, O. Wilhelmi, and M. Hayden, 2023. “Mixed effect logistic regression modeling of extreme heat and poor air quality risk among older adults in three sunbelt cities,” to be presented as an oral presentation (by PC) at the 11th International Conference on Urban Climate (ICUC-11), sponsored by the International Association for Urban Climate (IAUC), Sydney, AUSTRALIA, 28 Aug – 1 Sep.
122. Guzman-Echavarria, G., J. Vanos, A. Middel, **D. Sailor**, 2023. “Quantifying indoor heat stress and strain across climate contexts and adaptive capacities,” to be presented as an oral presentation (by DJS) at the 11th International Conference on Urban Climate (ICUC-11), sponsored by the International Association for Urban Climate (IAUC), Sydney, AUSTRALIA, 28 Aug – 1 Sep.
121. Schneider, F., A. Middel, J. Vanos, **D.J. Sailor**, and Z. Van Tol, 2023. “Evidence-based guidance on reflective pavement for urban heat mitigation in Arizona,” to be presented as an oral presentation (by ZVT) at the 11th International Conference on Urban Climate (ICUC-11), sponsored by the International Association for Urban Climate (IAUC), Sydney, AUSTRALIA, 28 Aug – 1 Sep.
120. S. Liu, J. Anand, and **D.J. Sailor**, 2023. “Modeling the impacts of reflective paving on building façade temperatures for typical residential neighborhoods in Phoenix Arizona “, to be presented as a poster presentation (by SL or DJS) at the 11th International Conference on Urban Climate (ICUC-11), sponsored by the International Association for Urban Climate (IAUC), Sydney, AUSTRALIA, 28 Aug – 1 Sep.
119. Anand, J., L. Yao, and **D.J. Sailor**, 2023. “Estimating the effects of different urban cooling strategies on surface heat fluxes: A case study in Phoenix, AZ, US”, to be presented as an oral presentation (by LY or DJS) at the 11th International Conference on Urban Climate (ICUC-11), sponsored by the International Association for Urban Climate (IAUC), Sydney, AUSTRALIA, 28 Aug – 1 Sep.
118. Ramirez-Aguilar, E.A., J. Anand, M. Alhazmi, and **D.J. Sailor**, 2023. “A data-driven approach to validate and contextualize archetype-based building energy models with census-tract information of population demographics and neighborhood characteristics”, to be presented as an oral presentation

- (by EAR) at the 11th International Conference on Urban Climate (ICUC-11), sponsored by the International Association for Urban Climate (IAUC), Sydney, AUSTRALIA, 28 Aug – 1 Sep.
117. **Sailor, D.J.**, G. Fagliarone, A. Middel, R. King, and T. Hebrink, 2023. “Highly reflective and thermally emissive urban infrastructure surfaces as radiant heat pumps for urban cooling”, to be presented as an oral presentation (by DJS) at the 11th International Conference on Urban Climate (ICUC-11), sponsored by the International Association for Urban Climate (IAUC), Sydney, AUSTRALIA, 28 Aug – 1 Sep.
 116. Crank, P.J., A. Middel, P. Coseo, and D.J. Sailor, 2023. “Assessing Microclimate Impacts of Neighborhood Redesign in a Desert Urban Climate Using ENVI-met and MaRTy”, presented (by PJC) at American Meteorological Society annual meeting, Denver Colorado, 10 Jan.
 115. Alhazmi, M.A., D. Yeom, and **D. Sailor**, 2023. “The heat emission-considered building design criterion in the early design process: Expert survey”, to be presented at the 6th International Conference on Countermeasures to Urban Heat Islands (IC2UHI 2023), Melbourne, AUSTRALIA, 4-7 Dec.
 114. Levinson, R., M. Alhazmi, J. Becce, A. Desjarlais, H. Gilbert, and **D. Sailor**, 2023. The Cool Surfaces Manhattan Project: Accelerating the climate-appropriate deployment of cool roofs and walls across the United States”, to be presented at the 6th International Conference on Countermeasures to Urban Heat Islands (IC2UHI 2023), Melbourne, AUSTRALIA, 4-7 Dec.
 113. Sheridan, S.C., E.B. de Guzman, **D.J. Sailor**, D.P. Eisenman, L.S. Kalkstein, J. Parfrey, Y. Chen, M. Koetter, and L. Soorianian, “Reducing Heat and Emergency Room Visits With Trees and High-albedo Surfaces in Los Angeles,” presented (by SCS) at AGU annual meeting in Chicago, Dec. 2022
 112. Levinson, R., M. Alhazmi, J. Becce, A. Desjarlais, H. Gilbert, and **D. Sailor**, “The Cool Surfaces Manhattan Project: Accelerating the climate-appropriate deployment of cool roofs and walls across the United States,” submitted for presentation at the 6th International Conference on Countermeasures to Urban Heat Islands, Melbourne, AUSTRALIA, Dec. 2023.
 111. Sheridan, S.C., **D. Sailor**, E.B. de Guzman, D.P. Eisenmann, J. Palfrey, L.S. Kalkstein, and Y. Chen, 2022. “Reducing Heat and Emergency Room Visits With Trees and High-albedo Surfaces in Los Angeles,” to be presented at the American Geophysical Union (AGU) Fall Meeting, Chicago, 12-16 Dec.
 110. Wright, M., P. Crank, A. Middel, D.M. Hondula, and **D. Sailor**, “Responding to Shade: Connecting Ecological and Social Landscapes to the Thermal Environments of Neighborhoods in Phoenix, Arizona”, 2021. International Society of Biometeorology 2021 conference, Sept 1, 2021.
 109. Schneider, F., J. Cordova, A. Middel, J. Vanos, **D. Sailor**, D.M. Hondula, K. Kaloush, J. Medina, 2021. “COPE Phoenix – Cool Pavement Evaluation Phoenix”, International Society of Biometeorology 2021 conference, Sept 1, 2021
 108. Wright, M., P. Crank, A. Middel, D. Hondula, and **D. Sailor**. 2021. Fine-scale meteorological observations from walking traverses in two Phoenix Area Social Survey (PASS) 2017 neighborhoods (2019) ver 1. Environmental Data Initiative. <https://doi.org/10.6073/pasta/e189ff52024a464dabb31861f397de3a>.
 107. Anand, J. and **D.J. Sailor**. 2021. The role of rooftop radiative properties in urban cooling and energy savings for different climate zones, ASHRAE Virtual Annual Conference, 28-30 June 2021.
 106. Wright, M.K., P.J. Crank, A. Middel, D.M. Hondula, and **D.J. Sailor**, 2021. “A comprehensive assessment of the thermal environment of two PASS Neighborhoods,” presented at the 101st AMS Annual Meeting and 12th Conference on Environment and Health, Jan 11.
 105. **Sailor, D.J.**, R. Lolly, K. Kaloush, F. Schneider, 2020. “City of Phoenix Cool Seal Paving Project,” presented as a panel discussion at the Arizona Department of Transportation Small Business Conference—Building for Success, Dec. 8.

2. **Sailor, D.J.**, 1994. “Sensitivity of Coastal Meteorology and Air Quality to Urban Surface Characteristics”, Presented at the 74th annual meeting of the American Meteorological Society, January, Nashville.
1. Kessler, R.C., and **D.J. Sailor**, 1993. "Use of Numerical Models to Assess the Effects of Energy Usage Reduction Measures on Air Quality in the Los Angeles Area". Presented (by Kessler) at the conference: The Role of Meteorology in Managing the Environment in the '90's, The Air and Waste Management Association (AWMA) January.

FUNDED RESEARCH:

AT ARIZONA STATE UNIVERSITY 2016-present

(>\$19.5M funded as PI + >\$5.8M as co-PI or SI)

- Southwest Urban Corridor Integrated Field Laboratory (SW-IFL), funded by the US Department of Energy (Biological and Environmental Research, BER Program), \$25M project (\$25M project--\$17.75M to ASU), \$7.25M directly to national laboratories, Dec 15 2022-Dec 14, 2027 (PI; investigator recognition 16%).
- Cool Ramadas, funded by Maricopa County Industrial Development Authority through the ASU Healthy Urban Environments initiative (\$96.5k) and 3M (\$73k), Jan 2022-Dec 2022 (PI; investigator recognition 100%).
- Innovation for Security, Resilience, and Sustainable Operations, Global Futures Laboratory Projects for Embassy 2050—managed by D. White. Funded by the US State Department Overseas Buildings Office (OBO) through a subcontract from Studio Ma Inc, \$515k, Oct 2021-Jun 2022 (co-PI, investigator recognition 12% with D. White, PI and others).
- MRI: Acquisition of a High Heat Compatible Sweating Thermal Manikin for Interdisciplinary Research, Funded by NSF, Aug 1, 2021 – Jul 31, 2023, \$414k (co-PI, investigator recognition 15%, with K. Rykaczewski PI, and others).
- Cool Pavement Pilot Program—joint study between the City of Phoenix and Arizona State University, City of Phoenix, \$162k, Aug 2020-Jul 2021 (Senior Investigator, investigator recognition 20% with co-PIs Ariane Middel and Jenni Vanos).
- Passive Radiative Heat Pump Surfaces for Urban Cooling: from Lab to Field Testing, \$86k, Jul 2020-Dec 2021. ASU Zimin Institute (PI, investigator recognition 40% with Richard R. King, co-PI, and Ariane Middel, co-PI)
- Environmental sustainability of Southwestern US utility-scale photovoltaic expansion under changing climate conditions, NSF Environmental Sustainability, 1940781 (co-PI investigator recognition 20% with A. Broadbent, PI and M. Georgescu, co-PI), \$298k.
- ASU Healthy Urban Environments (HUE) Initiative, through support from Maricopa County Industrial Development Authority, 2019-2020. Neighborhood-scale Comparison of Heat Mitigation Strategies Phoenix, \$50k. (PI, with student co-PI Crank; investigator recognition 100%)
- Mitsubishi, Kaiteki Institute, Design, Development and Testing of Innovative Materials for Urban Cooling, April 3, 2019-April 2, 2021, \$75k (year 1), \$125k (year 2), \$108k (year 3) sub-project PI (investigator recognition 100% for reported component).

Planning Grant: ERC for Control of Urban Thermal Environments, NSF Engineering Research Center Planning Grant, 1840392. Subcontract from Georgia Institute of Technology (Y. Joshi, PI), November, 2018 **\$20k**, ASU PI (investigator recognition 100%).

Collaborative Research: Development of a multi-scale model to determine optimal urban heat mitigation strategies for vulnerable populations in a changing climate, **\$141k** (investigator recognition 100%), NSF CBET 1623948 (transfer from award 1511905), 2015-2018. (Collaborative Research with G. Ban-Weiss, USC).

Fitness Center Energy Analysis, LifeTime Fitness, **\$15k**, Aug 2016-Sep 2018, PI.

Determinants of indoor and outdoor exposure to ozone and extreme heat in a warming climate and the health risks for an aging population, **\$1M** (investigator recognition 100%), EPA STAR GRANT 83575401, Jan. 2015 – Jan., 2018, PI.

LTER: CAP IV: Investigating urban ecology and sustainability through the lens of urban ecological infrastructure", NSF, **\$4.5M** (investigator recognition 3%), Dec 1, 2018 – Nov 30, 2022.

AT PORTLAND STATE UNIVERSITY 2003-2015:

(>\$4.1M funded as PI + >\$1.5M as co-PI or SI)

Green Building Research Lab (GBRL) Manager, **\$47k**, OR BEST, Sept. 2014 - Aug 2015, PI.

IREDD: Interdisciplinary, Research-based Engineering and Design for Green Buildings, **\$631k**, NSF Directorate for Education & Human Resources, grant 1259550. Co-PI with C. Griffin, S. Palleroni, H. Hu, and P. Dusicka, Sept. 1, 2014 – Aug. 31, 2019.

Walmart Realty Compliance Grant Application, **\$133k**. Walmart Hayden Meadows Green Roof & Stormwater Research Plan, Nov 2013-Nov 2015, PI.

Portland Regional Clean Technology Advance Initiative **\$50k** (+ \$50k in-kind match). Industry-University Collaboration to Develop New High Performance Window Products, Funded through the Portland Development Commission as part of a Jobs and Innovation Accelerator Challenge (JIAC) grant, PI with F. Etesami.

Towards an EcoDistricts Strategy for Sustainable Urbanism in the Gulf Region: Greater Doha as a Case Study, \$1M project, subcontract of **\$310k** from Qatar University. Funded by the National Priority Research Program (NPRP) of the Qatar National Research Fund, July 1 2012-June 30 2015. Co-PI with V. Shandas.

Development, Testing, and Pilot Scale Evaluation of a new Retrofit Window Insulation Product – The Indow Window, **\$73k**. Funded by Oregon BEST's Commercialization Grant Program, February 2011- May, 2012, PI.

Green Building Research Laboratory, **\$1M**. Energy and Water Development and Related Agencies Appropriations Act, 2010, 111th Congress, 1st session, Oct. 1, 2009, PI.

Implications of Simultaneous Extreme Heat and Drought Events for Electricity Generation and Consumption and Water Shortage in the Desert Southwest, **\$30k**. August 2009 – December 2010. Funded by the Bipartisan Policy Center – NCEP as a collaborative project with Arizona State University (D. Sampson and P. Gober).

Integrating Green Roofs and Photovoltaic Arrays for Energy Management and Optimization of Multiple Functionalities, April 2009 – March 2012, **\$300k**. NSF CBET, Environmental Sustainability, grant 0853933. Additional matching funds totaling **\$100k** from PGE, Portland Bureau of Environmental Services, and Oregon BEST. Co-PI (with C. Wamser and T. Rosenstiel).

Green Building Research Laboratory Infrastructure, 2009 (Jan. 2009- Jun. 2009). **\$652k**. PSU Center for Sustainable Processes and Practices (\$351.5k) and match from Oregon BEST Signature Research Center (\$300k). PI with G. Spolek, L. Lutzenhiser, and S. Palleroni.

Commercial Building Energy Use in Oregon – comparing 2007 Oregon non-residential energy code and the proposed 2010 code revision, **\$24k**, State of Oregon Building Codes Division. April 2009 - Feb. 2010, PI.

- A Green Roof Energy Calculator, **\$150k**, 2008-2010 (Nov 1, 2008- Nov 1, 2010). USGBC. PI (with G. Spolek, B. Bass, and S. Peck).
- Measurement and Modeling of Green Roof Performance Leading to the Development of an Energy Savings Calculator, **\$75k**, 2008-2009. Oregon BEST Signature Research Center, 2008-2009. Co-PI (with G. Spolek).
- A framework for developing design tools for estimating the building energy savings potential of ecoroofs, Total Project support **\$117k**. Ecotrust Foundation \$62k, Gerding Edlin \$5,000, City of Portland, Bureau of Environmental Services \$50k, 2006-2009, PI (with G. Spolek and D. Ervin, PSU).
- Developing Typical Meteorological Year (TMY) data files under climate change scenarios for use in building energy simulations: a case study of Hong Kong and California, HK\$ 658,750 (~**\$85k** USD), Hong Kong Research Grants Council- General Research Fund, co-PI (with M. Hart).
- Development of an Ecoroof Energy Performance Estimation Tool, EPA SBIR 2006, with Quantec LLC, \$70k. Subcontract to PSU in amount of **\$20k** for Phase I of SBIR, PI of PSU subcontract with G. Spolek.
- Wireless sensor network technology as a mechanism for enhancing multi-disciplinary engineering education, Intel Faculty Fellowship Program, 2005-2006, **\$40k** from Intel Corporation, **\$8k** from PacifiCorp, PI (with M. Faust, ECE, PSU).
- Professional, Technical, and Expert Services for Monitoring and Verification of Green Building Feature Performance, City of Portland, Office of Sustainable Development (subcontract of **\$5k**), 2005-2006, subcontractor.
- Complex interactions among urban climate, air quality, and adaptive/reactive human response: National Science Foundation, special competition in Biocomplexity in the Environment focusing on the Dynamics of Coupled Natural and Human Systems (BE-CNH), 2004-2010, **\$1.7M** and **\$12k** REU supplement (Award #s: 0410103 and 0455976), PI (with L. George, J. Semenza, B. Bornstein, and H. Taha).
- Assessing impacts of urban areas on precipitation - an investigation of UCP and anthropogenic heating: NASA, Global Precipitation Measurement Mission, 2005-2006, **\$15k** (Grant: NNG05GH96G), PI as part of a coordinated set of separate proposals (with H. Taha, Altostratus).
- Scoping Study- Assessment of the vulnerability of major cities in Australia to the impacts of climate change, Department of Environment and Heritage, Australian Government, support as a project consultant for Sinclair, Knight, Merz Pty., Ltd, 2005, **\$4k**.
- Atmospheric Modeling of the Potential Impacts of Green Roofs on Portland's Urban Climate: City of Portland Office of Sustainable Development (Intergovernmental agreement under ordinance # 178791), 2004, **\$5k**, PI.
- A Screening Tool to Assess the Benefits of Urban Heat Island Reduction Measures: U.S. Environmental Protection Agency (EPA Contract Number 68W02029) as a consulting subcontract (02029-06) through Perrin Quarles Associates, 2003-2007, Total: **\$57k**.

AT TULANE UNIVERSITY, 1993-2003:

(\$1.2M funded as PI + **\$337k** as co-PI or SI)

- Integrating Remotely Sensed Data and Anthropogenic Heating in Atmospheric Models of the Urban Environment: NASA (NASA/LEQSF (2002-03)-DART-03), 2002-2003, **\$35k**, PI.
- Streamlined Mesoscale Modeling of Air Temperature Impacts of Heat Island Mitigation Strategies: U.S. Environmental Protection Agency (Assistance ID No. 82806701), 2000-2002, **\$239k**, PI.
- COAMPS for Coastal Urban Transport Studies - Developing Infrastructure and Testing Models: Office of Naval Research (CBR, N00014-99-1-0763), 2001-2002, **\$51k**, PI.
- Land Use Feedback to the Regional Climate System: A Sensitivity Study, Department of Energy (Department of Energy, NIGEC, Cooperative Agreement: DE-FC03-90ER61010), 2001-2002, **\$72k**, PI

Investigating air quality and meteorological inputs at NIWOT Ridge Department of Energy (Department of Energy, NIGEC, Cooperative Agreement: DE-FC03-90ER61010), 2001-2002, **\$37k**, PI

Integrating Cutting-Edge Electromechanical Instrumentation Throughout the Mechanical Engineering Curriculum, Louisiana Board of Regents, Enhancement Program, 2000-2001, **\$150k** agency, \$73k match. PI (with J.F. Figueroa, E.E. Michaelides, and A. Rubinstein)

Enhancing Host Institution Capabilities in Support of NIGEC Activities - Energy and Environment Lab Course, Department of Energy (Department of Energy, Office of Biological and Environmental Research/NIGEC), **\$16k**, PI.

Collaborative Research with the Institute of Radioecological Problems (Belarus), Department of Energy-EM, 1994-1997, **\$337k**, co-PI with E.E. Michaelides (PI) and others.

Developing Tools for Rapid Assessment of Convective Transport of Atmospheric Contaminants Released Near or at the Surface: Department of Defense (DSWA/CBR), 1998-1999, **\$65k**, PI

Downscaling GCM Results for Regional Precipitation Studies, Department of Energy (Department of Energy, NIGEC, Cooperative Agreement: DE-FC03-90ER61010), 1997-2000, **\$244k**. PI.

Pulsed Impingement Heat Transfer for HVAC Applications, American Society for Heating, Refrigeration, and Air-Conditioning Engineers (ASHRAE), 1997-1998, **\$2.5k**, PI.

Energy-Use Implications of Climate Change, Department of Energy (Department of Energy, Summer Program in Environmental Engineering and Science (SPEES), TRW Corporation, through a grant to the School of Engineering, 1996-1997 **\$30k**. PI

NIGEC, Cooperative Agreement: DE-FC03-90ER61010), 1994-1997, **\$197k**. PI.

Improving Surface Characterizations for Atmospheric Models, Louisiana Board of Regents LEQSF Research Competitiveness Program, 1994-1997, **\$89k**. PI.

Shepherd, Marshall	University of Georgia
Starry, Olyssa	Portland State University
Taleghani, M.	Leeds Beckett University, UNITED KINGDOM
Wiedinmyer, Christine	National Center for Atmospheric Research
Wilhelmi, Olga	National Center for Atmospheric Research
Yoda, Minami	Georgia Institute of Technology

SUMMARY OF TEACHING AND MENTORSHIP:

Over my career I have developed and taught dozens of courses at both the undergraduate and graduate level. These courses have been in Engineering (e.g., Fluid Dynamics, Thermodynamics, and Heat Transfer) and in more applied aspects of environmental science (e.g., Urban Climates, and Global Change). I have also developed and delivered summer and Saturday programs for students in grades 6-12, focusing on attracting underrepresented students into STEM disciplines and environmental science, in particular. I am particularly proud of my mentoring of young researchers at all academic levels and my ability to include undergraduates as co-authors on more than 10 peer-reviewed publications.

Doctoral student and postdoc advisees and research topics:

Abbass, Omed (PhD 2017; co-Chair with Gall) Building materials and indoor air quality
 Alhazmi, Mansour Mohammed A. (PhD, May 2023; committee member with Yeom, chair, and Sanguinetti) Building simulation of innovations in façade materials
 Anand, Jyothis (PhD, 2022; co-chair with Phelan) Building façade materials' impact on indoor/outdoor environments.
 Baniassadi, Amir (PhD, 2019; chair) Thermal resilience of buildings
 Breslow, Paul (PhD 2004; chair), short-term electric utility load forecasting
 Crank, Peter (PhD 2020; chair). Targeted Heat Mitigation Strategies
 Fan, Hongli (PhD 2004; chair) urbanization of mesoscale atmospheric models
 Hart, Melissa (Postdoc, 2005-2008; advisor), heat, pollution and the role of health advisories
 Heusinger, Jannik (Postdoc 2016-2018; advisor), Real time urban heat mapping project
 Kang, Daeho, (Postdoc 2010-2011; advisor) Building energy modeling to include urban canyon effects
 Li, Xiangshang (PhD 2000 and postdoc 2001-2002; chair and advisor) Climate downscaling with Tree-Structured Regression
 Mehner, Aaron (PhD student 2021, departed program; co-advisor with Vanos) Sustainable energy technologies and policies
 Ramirez, Edwin (PhD 2021-present; advisor) Urban form and excess urban heat

Masters Student advisees and research topics:

- Aghili, Ali (M.S. 1995; chair). Doppler system to estimate narrowing of an atherosclerotic lesions
- Bhatnagar, Abhishek (M.S. 2006; chair) automated systems for urban heat island measurements
- Boschiero, Jonathan (M.S. 2011; chair). CFD modeling for urban applications
- Botham, D. (M.S. 2011-2014; chair). Urban climate modeling at neighborhood scales
- Brooks, Alamelu (2007-2008; chair) building energy modeling for assessing anthropogenic heat emissions
- Burnett, Ben (M.S. 2009-2011; chair) heat transfer measurements in urban settings
- Campbell, Kevin (M.S. 2011; chair) Optimization of phase change material use in buildings.
- Chu, Chaoyang (Billy) (M.S. 2000; chair). Urban Heat Islands and Climate Change
- Elley, Tim, (M.S. 2011; chair) modeling the building energy impacts of green roofs
- Fagliarone, Gina (M.S. expected 2022; advisor) Emerging technologies for sustainable buildings
- Fu, Qianli (M.S. 1999; chair) experiments of pulsed impingement heat transfer
- Ganesh, Karthikeyan (MS 2008; chair) Development of a small, low power wind sensor
- Gibson, C. Max (2010-2012; chair) Three-dimensional flux-skin estimation approach for urban measurements
- Groves, Matt (M.S. 2012; chair) Measurement and modeling of Passivehouse superinsulated structures
- Haque, Asim (M.S. 1997; chair) Mathematical modeling of the Moulder Cardiac Assist Device
- Heiple, Shem (M.S. 2008; chair), spatial and temporal variability of anthropogenic heating in cities
- Hu, Tianmiao (M.S. 1998; chair) Artificial Neural Network Techniques for Regional Climate Downscaling
- Lauck, J. (M.S. 2013; chair) Performance of super-insulated high-performance buildings.
- Lu, Lu, (M.S. 2003; chair)., Relationships among meteorological parameters and air quality.
- Madhusudan, Vikram (M.S. 2006; chair) Ecoroof mass and energy balance model for energy simulation
- Moody, Seth (M.S. 2012; chair) Evaluation of an integrated PV-green roof system.
- Muñoz, Ricardo (M.S. 1997; chair) Energy Use Implications of Climate Change.,
- Ogaili, Hamid (M.S. 2015; chair). Role of rooftop energy balance in affecting PV performance
- Pham, Toan (exchange student 2006; chair), Univ. of Lyon. Ecoroof model within the EnergyPlus
- Robar, Henry (M.S. 2008). Thermal discomfort island as it relates to surface characteristics and land use.
- Rodriguez, Santiago (M.S. 2014; chair). Sensible air to air heat recovery strategies in a Passive House
- Rohli, Dan, (M.S. 1999; chair) Design of a pulsatile flow valve for heat or mass transfer enhancement.
- Rosen, Jesse (M.S. 1998; chair) Local climatic effects of the creation of a hydroelectric reservoir
- Rumph, Greg (M.S. 1996; chair) Sub-grid parameterization strategies in atmospheric models
- Sabbaghi, Behnaz (2019-2020; advisor) MS project involving spatial analysis of mobile sensor data
- Savant, Abhijeet (2020-2021; advisor) Field measurements of cooling effects of heat mitigative infrastructure
- Scherba, Adam (M.S. 2011; chair) Urban heat implications of photovoltaic, green, and other roofing systems.
- Schultz, Isaac (M.S. 2015; chair). Rooftop Water and Energy Balances on Green Roofing
- Sharma, Vishaldeep (M.S. 2010; chair) A moisture transport and tracking model for ecoroofs.
- Vasireddy, Chittaranjan (M.S. 2004; chair) Improved state and city scale energy consumption models
- Vemulapalli, Karthikeya (M.S. expected 2022; advisor) Emerging technologies for sustainable buildings
- Vuppuluri, Prem, (M.S. 2013; chair) Building envelope energy balance effects on building and environment.

Service as external committee member for doctoral students (mostly international):

- Buckley, Niall., Ph.D. (Dec. 2022), Modeling Dublin: A workflow for the application of an Urban Building Energy Model to evaluate carbon mitigation strategies at neighborhood scales, University College, Dublin, IRELAND.
- Cowan, David J., Ph.D. 2006, Bridging building technology research and design practice: effective knowledge diffusion, University of Calgary, CANADA.

- Dey, Shuv, Ph.D. (June 2023), Coupled Modeling and Experimental Validation Framework for Multi-scale Characterization of Urban Thermal Environments, Georgia Institute of Technology, USA.
- Galal, Omar Mohamed., 2019-21, The Relation between the Morphology of Neighborhoods and their Ability to Depend on Solar Energy: Case Study New Aswan, Technical University of Berlin, GERMANY (served on committee during early phases, but required replacement during COVID due to in-person defense requirements at TU-Berlin).
- Hendarti, Religiana, Ph.D., 2013, The Influence of the Evapotranspiration Process of Green Roof Tops on PV Modules in the Tropics, National University of Singapore, SINGAPORE.
- Heusinger, Jannik, Ph.D., 2017, Extensive Green Roof Surface-Atmosphere Exchange of Energy and Carbon, Technical University of Braunschweig, GERMANY.
- Krebs, Lisandra, 2018, Extensive Green Roofs in Porto Alegre, Brazil: Effect on indoor thermal comfort in residential buildings,” dual degree program, Department of Architecture, Lund University, SWEDEN, and Faculty of Architecture and Urbanism, Federal University of Rio Grande do Sul, BRAZIL. Served as external “opponent” for defense in Porto Alegre BRAZIL
- Liu, Shuang, Ph.D., expected 2023, one-year visiting scholar studying outdoor thermal comfort of courtyards in a hot-humid climate, South China University of Technology, Guangzhou, CHINA.
- Ouldboukhitine, Salah Eddine, Ph.D., 2012, Impact of green roof on the energy performance of buildings by a multidisciplinary approach: Agronomy and Building, University of La Rochelle, FRANCE.
- Pinto-Garcia, German (PhD 2015) visiting student, Universidad Piloto de Colombia, Colombia.
- Taleghani, Mohammad, Ph.D., 2014, Dwelling on Courtyards: Exploring the energy efficiency and comfort potential of courtyards for dwellings in the Netherlands, TU Delft, NETHERLANDS.
- Touchaei, Ali Gholizadeh, Ph.D. 2015, Characterizing the Effect of Increasing Albedo on the Urban Meteorology and Air Quality in Cold Climates, a Case Study for Montreal, Concordia University, Montreal CANADA.
- Waly, Nourhan Muhammad, Ph.D., expected 2025. Coupling Relationships Between Urban Pattern and its Energy Performance at The Microclimate Level: A Mitigation Approach., Egypt-Japan University of Science and Technology, Alexandria, EGYPT
- Yao, Lingye, PhD., expected 2022. Studies on Simulation Methods for the Impact of Landscape Water Body on Urban Microclimate in Hot-humid Region, School of Architecture, South China University of Technology, Guangzhou, CHINA
- Zandaghian, Zahra, Ph.D., 2018, Effects of Increasing Surface Reflectivity on Urban Climate, Air Quality, and Heat-Related Mortality, Concordia University, Montreal, CANADA

Courses developed or taught at Arizona State University:

- Global Change (Arizona State University: GPH 314) Redesigned, implemented, and taught a large on-line course on the topic of global change. Offered each fall starting Fall 2018. Typ. ~340 online students.
- Urban Climates (Arizona State University: GPH 598 – GPH 563 effective 2020): Developed a graduate course for geographers, planners, designers, and engineers on urban climates and taught ~1/year 2016-present. Typ. ~10 students.

Courses developed or taught at Portland State University:

- Advanced Heat Transfer (Portland State: ME 442/542); Taught 1st year graduate students’ topics in conduction and convection heat transfer. Typ. ~15 students
- Building Energy Simulation (Portland State: ME 422/522); Developed and taught a course in building energy simulation using student-developed and commercial software. Typ. ~25 students
- Fundamentals of Building Science (Portland State: ME 423/523). Co-developed and taught (with G. Spolek and H. Hu) a new laboratory and measurement focused course on building science topics for upper division undergraduate and new graduate students. Typ. ~30 students
- Heat Transfer (Portland State: ME 323); Instructed Mechanical Engineering juniors in heat and mass transfer. Typ. ~35 students

High Performance Buildings (Portland State: ME 510/610); Graduate course focused on high performance residential buildings emphasizing Passive House designs. Typ. ~20 students
Thermodynamics (Portland State. ME 321): Traditional junior level course in Thermodynamics for Mechanical and Civil Engineering students. Typ. ~120 students

Courses developed or taught at Tulane University:

Advanced Fluid Mechanics (Tulane: MCEN 651); Instructed students in a graduate fluid mechanics course. Typ. ~ 10 students.
Computational Fluid Mechanics and Heat Transfer (Tulane: MCEN 626): Taught fundamentals of CFD to a class composed primarily of graduate students. Typ. ~10 students
Computer Aided Engineering (Tulane: MCEN 201); Introduced sophomores to many engineering software packages (e.g. Algor, Autocad, Mathcad, ProEngineer). Typ. ~25 students
Fluid Mechanics (Tulane: ENGR 344); Instructed engineering juniors in traditional undergraduate course. Typ. ~35 students
Heat Transfer (Tulane: MCEN 302); Instructed Mechanical Engineering juniors in heat and mass transfer. Typ. ~35 students
Introduction to Solid Modeling (Tulane: MCEN 202); Developed and taught a software-oriented course on solid modeling to juniors and seniors. Typ. ~25 students
Mechanical Engineering Laboratory (Portland State: ME 411, Tulane: MCEN 371); Instructed juniors, seniors, and graduate students in fundamentals of laboratory measurements and reporting. Typ. ~30 students
Mesoscale Meteorological Modeling (Tulane: MCEN 698): Offered a seminar course into the fundamentals of atmospheric modeling. Concepts included surface characteristics, surface energy balance, atmospheric diffusion, terrain-following (sigma) coordinates. 6 students.

Outreach and Other Education Projects:

FUSE Summer Institutes, as part of an NSF-funded project assisted in the development and delivery of a 4-week summer institute on urban climate and air quality for high school students and teachers. Program coordinator: L. George, PSU, 2005-2007.
Presentation at the Beaverton Hillsboro 2nd Science Expo, “Computational Modeling and Measurements in the Urban Climate System”, Sept. 17, 2004. Attendance >1000 high school students from 11 schools in Beaverton and Hillsboro attending concurrent sessions.
Tulane Science Scholars Program (TSSP) Instructor. Taught 12-hour course on Renewable Energy to high school juniors/seniors, Tulane University, Fall, 1998. Program specifically targeted recruitment of women into STEM.
Tulane Science Scholars Program (TSSP) Instructor. To teach an 8-hour course on Hands-on Application of Computer Aided Drafting in Engineering Design, Tulane University, Spring 2000. Program specifically targeted recruitment of women into STEM.
Summer Program in Environmental Engineering and Science (Tulane), Organized and directed a one-week summer science camp for local junior high school students using grant funds from TRW Inc., 1997. Participated in subsequent years of the program as an instructor for renewable energy projects under funding from the Department of Energy, Tulane University, 1999-2001. Program specifically targeted underrepresented minorities from the New Orleans public school system.
Fundamentals in Engineering Fluid Mechanics Review Lecture (Tulane); Provided review notes and lecture to prepare students for Fluid Mechanics portion of the FE exam; twice a year, Tulane University, 1994-96.

Teaching enhancement activities:

Master Class for Teaching Online – March 2018. Completed class on online teaching at ASU (through EdPlus). This two-week, asynchronous online workshop was designed to facilitate peer sharing of strategies for designing and teaching online courses.

EnergyPlus Summer Institute for faculty teaching energy modeling, hosted by Dru Crawley and U.S. Department of Energy
Fall Campus Symposium– Participated in Provost’s symposium focused on “identifying university learning outcomes”, June 2007.
PTC corporation weeklong training seminar in ProEngineer, June, 1999.
Gulf Southwest meeting of the ASEE, Houston, March, 1997.
Environmental Faculty Enrichment Seminar (2-week workshop), Tulane University, May, 1996.
Lilly Endowment Teaching Fellows Conference; Peach Tree, GA, March 1995.
Conference on Teaching in the Sciences; Tulane University January 1994.
Lilly Endowment Teaching Fellows Conference; Indianapolis, November 1994.
President’s Conference on Teaching and Learning; Tulane University October 1993.

SUMMARY OF SERVICE:

I place a high value on service to my colleagues, my university, society, and the broader research community. Within the university, I have been a member and chair of many committees from the department to university levels. I also serve the research community through leadership roles for major international societies and journals. My service activities are highlighted below.

Committees/Service at Arizona State University:

University

2020-2021: Chair, Research and Creative Activities Committee, ASU Faculty Senate
2018-2021: University Senate representative from SGSUP
2018-2019: University Senate – Research and Creative Activities Committee, member
2019-2020: University Senate – University Services and Facilities Committee, member
2016-2018: Co-Lead of the OKED Cities Campaign (with Dean Chris Boone)
2016-pres: Senior Sustainability Scientist, Julie Ann Wrigley Global Institute of Sustainability
2019-pres: Center for Innovation in Healthy and Resilient Aging, Internal Advisory Board member

College

2023: Member, search committee for Dean of The College of Liberal Arts and Sciences, ASU
2022-2023: Chair, search for Director of the School of Politics and Global Studies
2017-pres: Director, Urban Climate Research Center
2016-2019: CLAS Research Committee

School

2021-pres: SGSUP Executive Committee
2021-pres: SGSUP Research Advancement Committee
2019-2021: SGSUP Barrett Honors College Faculty Advisor (Geography)
2020-2022: SGSUP Student Awards & Scholarships Committee
2020-2022: SGSUP Personnel Committee, Chair (2021-22)
2019-2020: SGSUP Faculty Search Committee, Member – Urban Planning
2016-2017: SGSUP Faculty Search Committee, Chair –Environmental Planning Position

Committees at Portland State University:

University Committees

2014: Undergraduate Sustainability Certificate Learning Outcomes working group, Portland State
2012-2014: PSU Capital Committee, Standards Sub-Committee, member, Portland State
2012-2015: Senior Fellow, Institute for Sustainability Solutions, Portland State

- 2010-2014: Research Advisory Council, Member, Portland State
- 2008-2009: Search Committee, Chair for Energy Efficiency and Renewable Energy faculty position (1 of 5 sustainability positions), Portland State
- 2008-2009: Search Committee for Director for the Center for Sustainable Processes and Practices, Portland State, co-chair
- 2005-2008: Undergraduate Curriculum Committee, Portland State
- 2005: Research Advisory Council (Portland State)
- 2004: Sustainability Steering Committee, Portland State

College Committees

- 2013-2015: Dean's P&T Advisory Committee, Portland State
- 2012: Engineering 20-20 Committee (budget steering committee), Portland State
- 2008-2009: Faculty Senate, Senator Portland State
- 2004-2006: Curriculum Committee Portland State
- 2003-2004: Computing Task Force, College of Engineering, Portland State

Department Committees

- 2014-2015: Search Committee Chair, Building Science Position, Portland State
- 2007-2008: Faculty Search Committee, Chair – Energy Position, MME, Portland State
- 2006-2007: Tenure and Promotion Committee Portland State, Chair
- 2006-2007: Graduate Committee, Portland State, Chair
- 2004-2006: Curriculum Committee, Portland State, Chair, Jan.
- 2003-2004: Faculty Search Committee – Thermal Science Position, MME, Portland State

Committees at Tulane University:

University Committees

- Committee on Strategic Planning for Graduate Programs, Tulane, 1999.
- Committee on Athletics, Tulane, 1994-1997.
- Office of Research Ad Hoc Committee on Computing, Tulane, 1995-1996.

College Committees

- 2002: Steering Committee, Tulane Engineers Forum – Energy and the Environment, Tulane
- 2002: Session Chair, Power Session, Tulane Engineers Forum, Sept., Tulane
- 1993-2003: Computing Committee, Tulane (chair '00-'02).
- 1998-1999: Dean Search Committee, Tulane
- 1995-1998: Graduate Committee, Tulane

Department Committees

- 2001-2003: Undergraduate Committee, Tulane
- 2000: Administrative Assistant Search Committee, Tulane
- 1993-1999: Graduate Committee, Tulane, (chair, '95-'99).
- 1999-2000: Undergraduate Advisor, Tulane
- 1993-1996: Resource Committee, Tulane (chair '93-'94).

SOCIETY MEMBERSHIPS ADMINISTRATION:

American Association of Geographers

Member since 2019

American Meteorological Society

Member since 1993

Member, AMS Board on the Urban Environment, Jan. 2005- Dec. 2007.

Chair, AMS Board on the Urban Environment (2008-2011).

American Society of Heating, Refrigeration, and Air Conditioning Engineers

Faculty advisor to student section at Tulane (1997-2000).

Faculty advisor to student chapter at Portland State (2009-2012)

American Society of Mechanical Engineers

Member since 1993

Member K19 Committee on Environmental Heat Transfer (1995-2003)

Member K21 Committee on Heat Transfer Education (1997-2003)

Faculty advisor to student section at Tulane (2001-2003).

ASME Speakers Bureau, speaker (2013-2018)

International Association for Urban Climate (IAUC)

Member since 2001

Board member 2011-2015 (elected by membership of IAUC)

Secretary of the Board (elected in 2014 for new 3-year term, 2014-2017)

Cool Roof Rating Council (CRRC)

Member since 2020

Member, Education Committee (2020-present)

Member, Impartiality Committee (2022-present)

JOURNAL/MONOGRAPH REVIEWER (last 3 years):

Atmospheric Environment	Environmental Research Letters
Energy, the International Journal	Energy and Buildings
Energy and Environment	Energy Policy
Journal of Geophysical Research	Journal of Green Building
Journal of Hydrometeorology	Landscape and Urban Planning
Renewable Energy	Science of the Total Environment
Scientific Reports (Springer: Nature)	Solar Energy
Sustainable Cities and Society	Urban Climate

PROPOSAL/PROGRAM REVIEWER:

National Science Foundation

Proposal reviewer and panelist for various programs

U.S. Department of Energy, Energy Efficiency and Renewable Energy Program

Panelist for Energy Efficiency/Laboratory Program Reviews

Panelist for DoE SBIR program

U.S. Environmental Protection Agency

Panelist for EPA STAR program

Panelist for multiple SBIR programs

EDITORIAL BOARDS:

2020-present: *Sustainable Cities and Society* (Elsevier), member Editorial Board

2022-2025: *Energy and Buildings* (Elsevier), Section Editor for Urban Energy

2019-present: *Energy and Buildings* (Elsevier), member Editorial Board

2017-present: *J. Green Building* (College Publishing), member Editorial Board, member of Advisory Board (2021-present)

OTHER LEADERSHIP EXPERIENCE, ADVISORY BOARDS AND CREDENTIALS:

2022-2023: ACE Fellow. Selected as an American Council on Education Fellow for the 2022-23 academic year. The program, in which professors and administrators are matched with a mentor at

another college, has produced many presidents and provosts. (*due to the combination of being appointed as School Director and receiving a \$25M grant as PI, I opted to decline the opportunity at this time*).

2022-present: Innovation Ecosystems for Adaptive Sustainable Health, NSF project Technical Advisory Committee

2020-present: City of Tempe Transportation Department. Member, Bus Shelter Design Steering Committee

2020-present: Morrison Institute for Public Policy/Guinn Center for Policy Priorities Advisory Board member for project studying how disaster management policies address people of color's vulnerability to extreme heat.

2020-2021: International Scientific Committee of the 54th ASA (Architectural Science Association) 2020 conference, Auckland, NZ, 25-28 November, 2020.

2019- present: Member, Transit Shelter Steering Committee, City of Tempe

2019-2020: Member Science Committee for the 11th International Conference on Urban Climate, Sydney Australia, 30 Aug – 3 Sept, 2021.

2018-2023: National Renewable Energy Laboratory, US Department of Energy, URBANopt Advanced Analytics Platform Technical Advisory Group (TAG).

2018: Advisor to the Green Roofs Review Task Force, Denver Department of Public Health and Environment.

2017-present: Cool Building Solutions for a Warming World, Working Group Member, Lawrence Berkeley National Laboratory.

2017: International Association of Building Physics (IABP). Member, International Scientific Committee for IBPC 2018 held in Syracuse, NY, September 23-28, 2018.

2017-2018: Grand Renewable Energy Conference RE2018 (Yokohama, JAPAN), member International Advisory Committee.

2016-2021: CAP-LTER, Co-Lead, Climate & Heat IRT, ASU.

2014: US-KOREA Conference 2014—Korean-American Scientists and Engineers Association: Chair, Civil, Environmental, Energy Symposium (CEE), and Invited Keynote speaker, San Francisco, Aug 6-9, 2014).

2014: 13th International Conference on Indoor Air Quality and Climate, member International Scientific Committee, Hong Kong (July 7-12, 2014)

2011: National Academy of Sciences, Participant in the workshop: Urban Meteorology: Scoping the Problem, Defining the Needs BASC Summer Study, July 27-28, 2011 for the Committee on Urban Meteorology of the Board on Atmospheric Sciences and Climate; Division on Earth and Life Sciences; National Research Council (NRC), leading to the publication of Urban Meteorology: Forecasting, Monitoring, and Meeting Users' Needs

2010: Conference on Urban Environmental Pollution: Overcoming Obstacles to Sustainability and Quality of Life, organized by the Journal of Environmental Pollution, held on 20-23 June 2010 in Boston, Massachusetts, USA – member Scientific Advisory Committee.

2008: U.S. Green Building Council (USGBC), LEED Accredited Professional.

2008-2015: Oregon Built Environment and Sustainable Technologies (BEST) Signature Research Center, Member, Scientific Advisory Committee.

2007: American Meteorological Society, Conference co-chair (with Bob Bornstein and Jason Ching): Seventh Symposium on the Urban Environment, American Meteorological Society, San Diego, September, 2007.

2005-2006: Portland Office of Sustainable Development, Green Investment Fund - Monitoring and Verification of Green Building Feature Performance.

2002-2010: Session chair: multiple sessions, Symposia on Urban Environment.

Clean Cities Coalition Steering Committee, Mayor's Office of Economic Development, 2001.

2000: City of New Orleans, Mayor's Office, Cities for Climate Protection Workshop Organizing Committee, Mayor's Office of Environmental Affairs, Sept. 2000.

- 1998: American Society of Mechanical Engineers, Session co-chair for IMECE conference, “Environmental Heat Transfer” session, 1998.
- 1998: U.S. Global Climate Change Research Program – National Assessment, Member, Steering Committee for Gulf Coast Regional Assessment Workshop, Commerce, Industry, and Energy, session chair.
- 1997-2000: Global Warming International Conference, Member International Program Committee (1997), Session chair, GW9, Hong Kong (1998) and GW11, Boston (2000).

PATENTS AND AWARDS:

Landsberg Award: received the 2023 Helmut E. Landsberg Award from the American Meteorological Society with the following citation:

For outstanding contributions to the urban climate community with special mention to his trailblazing efforts on modeling anthropogenic heat and mitigation strategies

U.S. Patent pending: “Artificial Vegetation with Engineered Reflectance Spectra”, Provisional Patent Serial No. 63/313,939, filed Feb. 25, 2022. Patent application filed Feb 24, 2023.

U.S. Patent #10,704,263 B2: “High Albedo Moisture-Retaining Foam Roofing and Façade Systems, Utility patent filed by ASU, March, 19 2018. David J. Sailor, Nils Jannik Heusinger, and Amir Baniassadi, inventors, Issued July 7, 2020.

Building and Environment (Elsevier, Impact Factor 6.456), Awarded Best Paper Award 2017.

Energy and Buildings (Elsevier, Impact Factor 5.879), Awarded a Best Paper of the Decade distinction, 2008-2017.

AMS Board on the Urban Environment BUE Award, presented by the AMS (Feb. 2014) “For his seminal contributions to urban anthropogenic heating research, and for his outstanding leadership and service to the AMS Board on the Urban Environment.” (inaugural recipient). This award also recognized my leadership, initiating the first joint conference between the AMS Board on the Urban Environment and the International Association for Urban Climate (Dublin, 2012). This joint meeting has been repeated on an 18-month cycle since its inception.

Outstanding Faculty Research Award, Maseeh College of Engineering and Computer Science, Portland State University, June 2005.

Special Prize for Potential Applicability in Practical Applications. Rosen, J.N., and D.J. Sailor (1998). “Initialization Issues for Mesoscale Modeling of Urban Heat Islands,” Paper P10A.4, presented at the 2nd Symposium on Urban Environments, American Meteorological Society, Albuquerque, November.

U.S. Patent #6053203: “Mechanically-driven pulsating flow valve for heat and mass transfer enhancement,” David J. Sailor and Daniel J. Rohli, inventors. Issued April 25, 2000.

Undergraduate Senior Project Grant Program Award, ASHRAE support of \$2,500, 1997.

Teaching Fellowship, Lilly Endowment, 1994.

High Performance Computing Fellowship, National Science Foundation, 1992. Fellowship to participate in the Advanced Computing Summer Institute, San Diego Supercomputer Center.
