

SUMMARY CV FLORIS WARDENAAR

Academic Interests

Research: My research aims to solve performance related nutrition problems and create a positive impact on health and performance of athletic and active at-risk populations, including those risking impaired hydration, gastrointestinal complaints and the ones using non-third-party tested nutritional supplements increasing the risk on a positive doping test. For this purpose, I use cohort studies to describe health and/or performance problems, validation studies as part of development and validation of new education programs and/or methods, as well controlled intervention studies.

Teaching and mentoring: I have taught undergraduate and graduate students ranging the basics of nutrition (NTR100, NTR241), Apps in food science (NTR300), as well as applied sports nutrition (NTR494) and advanced sports nutrition (NTR555). I have actively mentored/worked with 13 PhD students (of which 2 as chair, and 4 as a current committee member), 31 Master students (25 of which as chair), and >85 undergraduates.

Service: I actively serve on committees at the program and college level, as well as contribution in various ways to the academic community, for example as a member of multiple professional organizations, and as executive board member of the international organization for Professionals In Nutrition for Exercise and Sport (PINES).

EDUCATION

Dates	Degree	Institution	Field of Study
2012-2017	PhD	Department of Human Nutrition, Wageningen University, The Netherlands	Dietary exposure assessment
		<i>Dissertation title: Evaluation of dietary intake and nutritional supplement use of elite and sub-elite Dutch athletes: Dutch Sport Nutrition and Supplement Study</i>	
		<i>Mentors: Renger Witkamp, PhD; Marco Mensink, MD, PhD; Jeanne de Vries, PhD</i>	
2001-2005	MS	Department of Human Nutrition, Wageningen University, The Netherlands	Nutritional physiology
1997-2001	BS	Nutrition and Dietetics, Amsterdam Applied University, The Netherlands	Dietetics/ sports nutrition

ACADEMIC APPOINTMENTS

2017-present	Assistant Professor in Nutrition , College of health solutions, Arizona State University, Phoenix, AZ, USA.		
2017-2019	Sports Nutrition Advisor , Sun Devil Athletics, Arizona State University, Tempe, AZ, USA.		
2014-2017	Team Lead , Team Nutrition at the Dutch Olympic Committee, Olympic Training Center Papendal, the Netherlands.		
2012-2014	Sports Scientist , Innosportlab Papendal, the Netherlands.		
2011-2017	Highest ranked Senior Lecturer (comparable with clinical professor in the USA), Team Leader and senior administrator/management team , Sports and Exercise Nutrition at the Institute for Sports and Exercise Studies, HAN University of Applied Sciences, The Netherlands.		
2007-2012	Sports Dietitian , Dutch Olympic Committee, Olympic Training Center Papendal, the Netherlands.		
2007-2010	Sports Dietitian , TVM Professional Speed Skating Team, the Netherlands.		
2006-2011	Lecturer , (Sport) Nutrition Institute for Paramedic Studies and Institute for Sports and Exercise Studies, HAN University of Applied Sciences, the Netherlands.		

HONORS AND AWARDS

2024-present	External Advisory Committee UniSC Master Dietetics (Sports Nutrition), University of the Sunshine Coast, Australia.
2023-present	Executive board member PINES, Professionals in Nutrition for Exercise and Sports, Vice-President.
November 2020	Awarded: Global Sport Institute Scholar by the Global Sport Institute at ASU
March 2020	Nominated for the "CHS Research Award" and "CHS Mentoring Award" for the 5 th Annual CHS Staff and Faculty Awards
2020-2023	Board member PINES, Professionals in Nutrition for Exercise and Sports, Educational Officer.
2012-2017	Competitive PhD scholarship HAN University of Applied Sciences, Nijmegen, The Netherlands.
2012-2017	Member management team and Institute liaison for research at the Institute of Sports and Exercise, HAN University of Applied Sciences, Nijmegen, The Netherlands.
2016	One of the first two faculty members within the Institute of Sports and Exercise that was promoted from a Senior lecturer 2 to Senior lecturer 1 position, the highest faculty position as teaching faculty. HAN University of Applied Sciences, Nijmegen, The Netherlands.
2015	Excellent annual performance review at Sports and Exercise studies, an excellent score is seldom awarded within Dutch Universities.
2014	Nominated for 50 best dietitians of The Netherlands by Scriptum.
June 2005-October 2005	Research scholar, Department of Kinesiology & Health Education, University of Texas at Austin, Texas.
2007 and 2008	Staff member of TVM Professional Speed Skating Team that received KNSB team of the year title twice in a row.

ACTIVE COMMITTEE MEMBERSHIPS

2024-present	Committee member ACSM Research Awards.
2024-present	External Advisory Committee UniSC Master Dietetics (Sports Nutrition), University of the Sunshine Coast, Australia.
2023 – present	Vice-President PINES (Professionals in Nutrition for Exercise and Sport) Executive Board.
2023 – present	Committee member on rewriting NATA’s position stand on Dietary Supplements.
2022 – present	Committee member on preparing a CPSDA proposal to broaden supplement opportunities for athletic departments in NCAA sports.
2021-2024	Vice Dean’s Advisory Board at the College of Health Solutions.
2021-present	Committee member on the committee on committees as part of the College of Health Solutions at ASU.
2020-present	Curriculum committee member MS program Strength & Conditioning.

RESEARCH AND SCHOLARSHIP

SPONSORED RESEARCH FUNDING

The figures on the right project the total amount of funds awarded since the start of my employment at ASU. In black is the total awarded to ASU for projects that I have been involved in, with in grey the total amount recognized to my name. The donut diagram shows a breakdown of funding sources.

My research interest focuses on:

- Optimization of hydration status, fluid balance, and heat acclimatization
- Use and effect of dietary supplements and sports nutrition products on health and performance
- Validation of new performance nutrition related assessment tools in active populations

Ongoing external funding

2024-Present **“ARIZONA Study”**

In collaboration with Friesland Campina. \$290,220. PI.

Two controlled trials to determine the impact of a new multi-ingredient whey supplement.

“Philanthropic gift to support the lab ”

From Friesland Campina. \$213,000. PI.

Two support the development of the lab toward GI research in active populations.

2023-2024 **“Startup services for FrieslandCampina’s study “Clinical trial on Biotis® Fermentis with recreational US athletes”**

In collaboration with Friesland Campina. \$46,372. PI.

Aiming to design a follow up study of the earlier funded Protein well-being study. Preparation for the design and acquisition of funds for two controlled trials.

2023-2026 **“Rehydration efficiency during Ad-libitum fluid intake”**

Funded by Unilever Corporation, \$370,697. Co-I with PI Dr. Stavros Kavouras.

Impact of the hydration capacity of a rehydration beverage.

2023-2025 **“The impact of self-assessment on wildland firefighter hydration”**

Funded by FEMA. \$400,000. PI with Co-Is Dr. Stavros Kavouras and Dr. David Sklar.

To investigate the field-based validity and impact on hydration status of hydration self-assessment by wildland firefighters using simple biomarkers.

2023-2024 **“Impact of low sugary drinks on hydration status in kids”**

Funded by Kraft Foods. ~\$110,000. Co-PI with PI Dr. Stavros Kavouras.

The aim of the present study is to examine the impact of the hydration capacity of a low sugary drink for kids.

- 2023-2024 **“Rehydration after exercise with high-electrolyte sport drink”**
Funded by Dairy Management Inc. \$111,143. Co-PI with PI Dr. Stavros Kavouras.
The aim of the present study is to examine the impact of the rehydration capacity of different fluids.
- 2023-2024 **“Nutrition: Pac-12 Student-Athlete Project on Dietary Supplement Third-Party Testing Compliance”**
Funded by Pac-12 student-athlete health and wellbeing grant application. \$121,116. PI with Co-PI Dr. Christopher Gardner from Stanford University.
The overall goal of this project is to develop a new short screening questionnaire to identify student-athletes who are not using certified third-party tested supplements.
- 2022-2025 **“Effectiveness of blood or plasma donations in lower cancer-causing PFAS levels”**
Arizona Board of Regents (ABOR) funded by: Technology and Research Initiative Funds, established through Prop. 301 and utilizing sales tax revenues. \$103,000. PI, as Co-PI of a \$4M award in collaboration with Drs. Jeff Burgess and Melissa Furlong from University of Arizona. *Testing firefighters pre- and post-intervention to see if PFAS levels can be reduced.*
- 2022-2024 **“The impact of low glycemic index nutritional shake on glucose regulation in overweight and obese adults”**
Funded by Standard Process Inc. \$330,310. Co-PI with PI Dr. Stavros Kavouras.
The aim of the present study is to examine the impact of replacing breakfast and afternoon snacks with a meal replacement shake on glucose regulation.
- 2021-present **“MRI instrument grant: Acquisition of a High Heat Compatible Sweating Thermal Manikin for Interdisciplinary Research and Education on Human Thermal Exposure and Safety in Hot Climates”**
Funded by NSF, awarded budget \$413,875. Co-I with Co-PIs Drs. Konrad Rykaczewski, Ariane Middel and Stavros Kavouras.
This sweat manikin allows for performing state of the art sweat simulations. Which will help to model sweat rate efficiency questions pertaining desert heat and allow for acquiring further future competitive funding.
- Ongoing internal**
- 2024-2025 **“Exploring the efficacy of sodium bicarbonate supplementation on reducing markers of acute kidney injury (AKI) during physical work in the heat”**
Funded by the College of Health Solutions at ASU, \$49,676. Co-I with PI Dr. Jason Siegler, and Co-I Dr. Stavros Kavouras.
- 2023-2024 **“Real-world physiologic experiences of cooling center users and cooling efficacy: A Phoenix case study”**
Funded by Knowledge Exchange for Resilience at ASU, \$35,000. Co-I with PI Dr. Jennifer Vanos and Co-I’s Reverend Katie Sexton-Wood, and Drs. David Hondula Michelle Litwin, Melissa Guardaro.

Completed externally funded research (at ASU)

- 2022-2023 **“Protein well-being study”**
Funded by Friesland Campina. \$60,332. PI.
Explorative study to determine the impact of a fermented whey protein with soluble fiber on gastrointestinal complaints, well-being and gut microbiota.
- 2022-2023 **“Development of a screening questionnaire to identify student-athletes at risk of using tainted nutritional supplements”**
Funded by the Collegiate and Professional Sports Dietetic Association (CPSDA). \$15,000. PI. *Aims to collect pilot data to investigate dietary supplement use and predictors of uncertified supplements in a small group of collegiate athletes.*
- 2020-2021 **“Fluid Hiking Decision Study”**
Funded by AZ parks and trails, awarded budget \$9,400. PI.
This study aims to evaluate the impact of a short educational video on fluid consumption when showed to hikers directly before the start of their hike in the Phoenix area.

Completed internally funded research (at ASU)

- 2022-2023 **“Development of a supplement education program for high school athletes. Funded by the Institute for Social Science Research at ASU”**
\$7,744. PI with Co-PIs Drs. Hans Van der Mars and Pamela Kulinna.
Aims to develop new supplement high school student-athlete education program.
- 2021-2022 **“Assessing physiological and socio-psychological heat related risk perceptions and behavior among Phoenix metropolitan area hikers”**
ISSR, awarded budget \$8,000. PI with Co-PIs Drs. Megha Budruk and Frank Lo Vecchio.
This study aims to associate self-reported risk behavior and physiological outcomes in hikers.
- 2021-present **“The Impact of Adequate Water Intake on Exercise Performance and Mood in Women and Men”**
Global Sport Institute, awarded budget \$19,618.
Co-PI with PI Dr. Stavros Kavouras and Co-PI Dr. Jodi Stookey.
This study aims to evaluate the effect of optimizing hydration status on mood and performance.
- 2020-2021 **“Warming Up and Cooling Down Study”**
Global Sport Institute, awarded budget \$18,000. PI with Co-I’s Drs. Stavros Kavouras and Jenni Vanos.
This study aims to evaluate multiple strategies to increased and decrease body core temperature.
- 2019-2020 **“USA no.1 Study | Urine Color Self-Assessment and Racial Differences.”**
Seed Grant, Global Sports Institute. Awarded budget: \$20,000. Lead Co-PI with Dr. Stavros Kavouras. *This study aims to develop a method to assess hydration status based on one single color.*
- 2019-2020 **“FAN study | Female Athlete Nutrition study.”**
Seed Grant, Global Sports Institute. Awarded budget: \$20,000. Mentoring PI with Kaila

Vento, PhD student as operating PI. *This study aims to investigate differences between dietary quality in females from different social economic status and race.*

2019-2020 **“Development of a Self-Assessment Urine Color System (UCS)”**
Seed Grant, College of Health Solutions and Herberger Institute. Requested budget \$5,000. PI, with Co-PI Dean Bacalzo. *This study aims to develop a device that can be used at home to assess urine color in athletes.*

Completed (prior to arrival to ASU)

2017-2018 **“NutrEnd Study”** at the HAN University of Applied Sciences Sponsor: Friesland Campina €256,000. Co-PI with Co-PI Dr. Jan-Willem van Dijk. *This study aims to assess the impact of protein supplementation during long-term endurance exercise training on VO2max, endurance exercise performance, and muscle function in recreationally active young men.*

2016-2017 **“ConsuMeRun Study: food and fluid intake of runners during competition.”**
Sponsor: As part of Eat2Move (regional grant project of the province of Gelderland), PI.
Budget: €35,000.

2016 **“Analysis of protein intake and preferred food groups of elite athletes.”**
Sponsor: Friesland Campina, PI.
Budget: €20,000.

2012-2014 **“Small pilot studies as part of the development of a new sport bread.”**
Sponsor: Sportsgrain, PI.
Budget: €20,000.

2011 **“Pilot study about the effect of tryptophan on sleep and agility in athletes.”**
Sponsor: DSM, PI.
Budget: €44,000.

PUBLICATIONS

In nutrition, authors are listed in decreasing order of contribution, with exception of the last author, who is (in most cases) the corresponding or senior author. For the publications listed, the following considerations are considered:

- The first author is usually the person who conducted most of the work.
- I am corresponding author when I am listed as the first or last author.
- In case the first author was a student (graduate or undergraduate students are underlined), the contribution of the student and the corresponding author can be considered similar.

-A student's second authorship reflects much of the work under the corresponding author's mentorship.

When at ASU a total of 32 students contributed to the listed publications (some multiple times), of which 7 at undergraduate, 15 at graduate, and 12 at PhD level. An additional PhD student contributed to manuscript that was accepted, and one doctoral student contributed to a manuscript that is currently under review.

The most up-to-date google scholar index metrics (number of citations at 01/01/2025: 1109, h-index: 16 (h-index was 7 at start of rank) and i10-index: 22, and 225 citations during 2024), can be found at: <https://scholar.google.com/citations?user=w-lkW8sAAAAJ&hl=en>, and Journal metrics are listed as Impact Factor (IF) or Cite Score (CS).

CURRICULUM DEVELOPMENT (6)

Fall 2023	Revised the NTR555 Advanced Sports Nutrition course, adding rubrics to the assignments, as well as revising assignments after having them proofread by former students.
Fall 2022	Development NTR555 – revising content, adding Gatorade Sports Science University (GSSIU) elements and VLOG assignment to the course allowing students to share experiences about the usability of the GSSIU content.
Fall 2022	I have added a new section to my NTR100 Intro in Nutrition Science Online course because I learned that students sometimes lack the connection with each other. For this purpose, I have added a land map on which all students can point where they live, allowing them to know which students live in the same state or city, at the same time I have added a discussion board that students use to connect and exchange interests.
Fall 2021	Development NTR555 – revising content, adding dietary calculations and assignments.
Spring 2021	Development NTR494 – added open access virtual webinar series with (inter)national sport nutrition experts.
Spring 2019	Development of NTR555 Advanced Sports Nutrition course.

STUDENT MENTORING

Since 2017, I have mentored 2 PhD students and 26 graduate students (MS) as chair, of whom 19 have passed their thesis defense since 2018. Most have successfully applied for student grants or awards from GPSA at ASU, but since 2023, all students have worked on externally funded projects. The number of students per year, the number of funds they secured under my mentoring, and the number of publications they were involved in (mentioned under publications) are listed in the figure below.

Mentored CHS Exercise and Nutritional Science (ENS) PhD students under my direction (Committee chair)

Student	Degree/Topic	Date enrolled	Progress
Kinta Schott	ENS – PhD student	Fall 2022	Enrolled
Kaila Vento	ENS – PhD candidate	Fall 2018	Graduate

Mentored CHS PhD students (Committee member, or working together on research project)

Student	Degree/Topic	Role	Chair	Dates
Raul Freire	PhD ENS	Committee Member	Siegler	Enrolled
Sajjad Rezaei	PhD ENS	Committee Member	Kavouras	Enrolled
Brooke Butterick	PhD ENS	Committee Member	Siegler	Enrolled
Raul Freire	PhD ENS	Internship mentor	Siegler	Enrolled
Emily Dow	PhD ENS	Committee Member	Johnston	Enrolled
Brooke Butterick	PhD ENS	Project mentor	Siegler	Enrolled
Alex Mohr	PhD ENS	Project mentor	Sweazea	Graduated 2023

Carmen Ortega-Santos	PhD ENS	Project mentor	Whisner	Graduated 2023
Meynard Toledo	PhD ENS	Project mentor	Buman	Graduated 2021

External PhD students (Examiner, or committee member, or working together on research project)

Student	Degree/Topic	Institution	Dates
Michelle Gimbar	PhD candidate	Rutgers University, NJ, USA	Graduated 2024
Felipe Marticorena	PhD candidate	Sao Paulo University	Enrolled
Kristen Hamilton	PhD clinical nutrition	Rutgers University, NJ, USA	Graduated 2022
Bridin McDaid	PhD in nutrition	Queen's University Belfast, Ireland	Fall 2021-present
Gina Trakman	PhD in nutrition	La Trobe University, Australia	March 2018

Mentored CHS graduate students under my direction (Committee chair)

Student	Degree/Topic	Date enrolled	Progress
27) Kyle Reid	MS Nutrition	Fall 2024	Enrolled
