RESEARCH AND SCHOLARSHIP

Trained as a clinical psychologist, I am focused on pragmatic, collaborative, interdisciplinary research that promotes health equity, increases engagement in health care, and improves health outcomes. I bring an environmental systems perspective to study how modifiable contextual factors (organizational culture, policies, workflows, stigma, infrastructure, etc.) impact health and can inform more effective adaptation and implementation of behavioral interventions.

Key research descriptors:

• health behavior change • behavioral interventions • multi-level interventions • health equity • mixed methods • implementation science • integrated behavioral health • weight stigma • disordered eating • physical activity • weight-inclusive care • diabetes • chronic pain • quality of life • Acceptance and Commitment Therapy • population health

SELECTED HONORS AND AWARDS

Society of Behavioral Medicine, Citation and Meritorious Abstract Award	2024
University of New Mexico, Dean's Earickson Dissertation Scholarship	2017, 2018
University of New Mexico, GPSA Student Research Grant	2016, 2017
Society of Behavioral Medicine, Distinguished Student Travel Scholarship	2016
Society of Behavioral Medicine, Pain SIG Outstanding Student Research	2014
American Association of Heart Failure Nurses, Clinical Innovation Award	2010
Towson University Outstanding Clinical Psychology Graduate Student	2008
University of Nebraska-Lincoln Regents Tuition Scholarship	2002 – 2006

ACADEMIC APPOINTMENTS

Assistant Professor,

Arizona State University, College of Health Solutions

8/2022 - Present

- Endorsed faculty for Population Health PhD program
- Project director of \$3M HRSA grant to develop and implement a Community Health Worker Training Program to improve care in medically underserved regions of Arizona.
- mPI on \$3.4M Dignity/ASU grant to scale and evaluate effectiveness of the Community Health Worker program at St. Joseph's Hospital and Medical Center.
- Leading implementation research examining primary care provider perceptions and behavior changes following weight-inclusive care training.
- Analyzed pilot data examining weight stigma among insufficiently active adolescents and their parent/guardian (WalkIT Adolescent).

Postdoctoral Scholar,

Arizona State University, College of Health Solutions

Faculty Mentor: Marc Adams, Ph.D., MPH

6/2019 – 8/2022

- Co-authored R01 proposal using maintenance module and sequential multiple assignment randomized trial (SMART) design to increase physical activity in adults with prediabetes
- Co-authored second R01 proposal adapting & evaluating intervention in adolescents
- Mentored undergraduates in data cleaning and analysis
- Statistical analysis and manuscript writing for large scale, data-intensive RCT evaluating mHealth intervention with adaptive goals and financial reinforcement to increase physical activity among insufficiently active adults
- Developed brief automated maintenance module using behavioral principles and ACT to enhance generalizability of mHealth treatment effects

Research grants supporting this position:

- NIH/National Cancer Institute (R01 CA198915), WalkIT Arizona: Neighborhood walkability and moderation of adaptive interventions for physical activity. PI: M. Adams, 8/2015 – 7/2021, \$2,620,097. (Role: Postdoc)

Faculty Mentor: Rodger Kessler, Ph.D.

8/2018 – 4/2021

- Co-PI and community partner site lead for ASU awarded COVID-19 pilot grant evaluating a system combining patient-reported quality of life, EHR-, and claims- based vulnerability indices for rapid risk triage and real time clinical decision support

- Collaborated with multiple transdisciplinary research teams with expertise in integrated behavioral health, bioinformatics, community practice-based research, patient-reported outcome measures, & dissemination and implementation
- Completed fellowship training in dissemination & implementation science
- Co-developed Checklist for Implementation Research to facilitate successful collaboration among research institutions and community practice partners
- Conducted qualitative analyses and co-developed revised Practice Integration Profile 2.0 (PIP 2.0), a measure of integrated behavioral health care
- Co-developed curriculum and trained medical assistants to deliver brief health coaching intervention for adults with T2DM in primary care
- Developed multilevel intervention to increase patient engagement via promotion of weight-inclusive practice in primary care to address provider weight stigma
- Project lead and co-director of 3-year consultation project (supported by SAMHSA FQHC infrastructure development funds) with Wesley Community Health Center to assist design & implementation of novel system to expand behavioral health services in primary care; facilitated planning for Promotores to assist patients with multimorbidities and increase behavioral health reach and implementation into current practice workflow

Research grants supporting this position:

- Dignity Health/Arizona State University Strategic Initiatives, The ASU- Dignity Health Type 2 Diabetes Medical and Behavioral Lifestyle Management Program, Co-PIs: E. Paul, R. Kessler, & S. Angadi, 9/2018 – 12/2020, \$249,142. (Role: Co-I)
- Patient Centered Outcomes Research Institution (PCORI Award #PCS-1409-24372), Integrating Behavioral Health and Primary Care (IBH-PC), Co-PIs: B. Littenberg, & R. Kessler, 4/2016 – 4/2021, \$18,509,211. (Role: Postdoc)

RESEARCH POSITIONS

Research Assistant,

New Mexico VA Health Care System

Supervisors: Karen Cusack, Ph.D., & Kevin Vowles, Ph.D.

2015 – 2017

- Co-led 12-week ACT and Mindfulness Based Relapse Prevention (MBRP) groups for Veterans with chronic pain and problematic opioid use
- Part-time study coordinator; managed recruitment, payment, data collection, data entry

Completed research grant:

- National Center for Complementary and Integrative Health (R34 AT008398), Pilot study of integrated treatment for Veterans with chronic pain and opiate misuse, PI: K. E. Vowles, 8/2014 - 6/2018, \$654,270. (Role: Graduate research assistant, clinician)

Research Assistant,

University of New Mexico, Department of Psychology

Supervisor: Kevin Vowles, Ph.D.

2015 – 2017

- Performed literature review, data abstraction, data entry, and assisted with analysis in systematic review of opioid abuse and addiction in chronic pain
- Administered SCIDs to chronic pain patients examining prevalence of opioid addiction in local community sample

- Conducted secondary analysis of treatment intervention data to explore individual changes in pain-related acceptance over the course of treatment, used item response theory to shorten 136 item Sickness Impact Profile to 42-item SIP for Chronic Pain

Completed research grant:

- Robert Wood Johnson Foundation Center for Health Policy; Opioid dependence in chronic pain: Prevalence and impact on quality of life, Co-PIs: K. E. Vowles & D. N. van der Goes, 6/2013 – 11/2014, \$18,965. (Role: Graduate research assistant)

Dissertation Research,

University of New Mexico

Dissertation Chair: Kevin Vowles, Ph.D.

2014 – 2017

- Comprehensive examination: authored integrated review of variants of the affect-regulation model of binge eating and developed functional unified theory
- Dissertation: assessed theoretical importance of overvaluation of body shape/weight, examined implicit bias toward fatness among college students and extent to which implicit and explicit attitudes predict binge eating behavior

Senior Research Assistant,

Johns Hopkins University, School of Medicine

Department of Cognitive Neurology/Neuropsychology

Supervisor: Kyongje Sung, Ph.D.

2010 – 2012

- Proposed study designs for language and visual perception studies
- Developed and programmed experiments in E-prime
- Administered and aided in interpretation of EEG, eye tracking, transcranial direct current stimulation (tDCS), and neuropsychological assessment data
- Used Applied Behavior Analysis (ABA) in one-on-one work training low-functioning non-verbal adults with autism to complete computer tasks
- Computational modeling of visual attention, data analysis, and manuscript preparation

Research Assistant/Coordinator,

Johns Hopkins University, School of Nursing

Supervisor: Cheryl R. Dennison-Himmelfarb, Ph.D

2007 – 2010

- Developed and pilot tested low-literacy patient education materials
- Conducted qualitative interviews and patient focus groups
- Coordinated interdisciplinary intervention using telemonitoring and community health navigator to improve congestive heart failure patient self-care among African Americans
- Trained and supervised research assistants on data entry and analysis
- Assisted with manuscript and grant preparation

Completed research grant:

- National Institutes of Health (R21 NR011056), Nurse-led heart failure care transition intervention for African Americans: The Navigator program, PI: C. R. Dennison, 9/2008 – 7/2011, \$451,000.

Research Assistant,

Towson University, Disordered Eating & Body Image Lab

Supervisor: C. Alix Timko, Ph.D. 2007 – 2008

- Statistical analyses to examine relation between experiential avoidance and body image
- Led CBT, ACT, and psychoeducational body image groups to compare effectiveness of interventions to college students
- Developed study protocol examining experiential avoidance as moderator of psychotherapy treatment outcome
- Conducted literature review on dietary restraint

Research Assistant,
Sheppard Pratt Health System

Supervisor: Desmond M. Kaplan, MD 2007 – 2008

- Developed and conducted brief survey study examining stress in caregivers of adolescents with developmental disabilities
- Developed patient educational programming materials for mental health providers

Undergraduate Research Assistant,
Nebraska Public Policy Center

Supervisor: Denise Bulling, Ph.D. 2004 – 2006

- Created multimedia guide for faith- and community-based initiative to improve access to mental health services in Nebraska (NEBHANDS); developed websites for Disaster Behavioral Health, Critical Incident Stress Management, & NEBHANDS programs
- Data entry, database management

PEER-REVIEWED PUBLICATIONS

My work has been **cited 1967 times** according to Google Scholar (5/24), with an **h-index** of 12.

Single authored publications in my area of study are unusual. Authors are typically listed in order of decreasing contribution, with the exception of the senior author or principal investigator who is often listed last unless they were also the primary author on the manuscript.

For the citations listed below, SCS refers to the journal's latest available Scopus CiteScore (2023), a metric similar to journal impact factor, alongside the journal percentile rank and subject area. The majority of my publications (73.7%) are in the top 25% of journals by CiteScore.

AWARDED GRANTS/CONTRACTS

1. Scaling and evaluation of the Dignity CHW program, 7/2024 – 7/2027. **Role:** mPI, cowrote proposal, leading qualitative evaluation. (Status: Awarded, \$3,312,154)
2. HRSA Community Health Worker Training Program (CHW-TP) grant. PI: McEntee, 9/2022 – 9/2025. **Role:** PI, wrote proposal. (Status: Awarded, \$2,999,934)
3. Practice transformation consultation services with Wesley Community & Health Centers. (Inherited from Dr. Kessler following his ASU departure). **Role:** PI on 1.5 year contract renewal valid through 12/31/2022. (Status: Awarded, \$61,500)
4. NIH/NHLBI (R01 HL139120), Salad bars and students fruit and vegetable consumption: A group-randomized trial with objective assessments. Co-PIs: M. Adams, M. Bruening, 8/2017 – 6/2022. **Role:** Co-I, assisted with data cleaning and analysis in 2022. (Status: Awarded, \$2,843,186)
5. NIH/National Cancer Institute (R01 CA198915), WalkIT Arizona: Neighborhood walkability and moderation of adaptive interventions for physical activity. PI: M. Adams, 8/2015 – 7/2021. **Role:** Postdoc, data analysis and manuscript writing. (Status: Awarded, \$2,620,097)
6. Dignity Health/Arizona State University Strategic Initiatives, The ASU- Dignity Health Type 2 Diabetes Medical and Behavioral Lifestyle Management Program, Co-PIs: E. Paul, R. Kessler, & S. Angadi, 9/2018 – 12/2020. **Role:** Co-I, developed intervention curriculum and edited proposal. (Status: Awarded, \$249,142)
7. Responding to COVID with technology and patient reported data for rapid, out of office triage and real time clinical decision support. Arizona State University Spring 2020 COVID-19 Grant Program. Awarded 6/15/2020-6/14/2021. **Role:** Co-PI, site lead, drafted initial proposal. (Status: Awarded, \$20,000)
8. Meta-analysis of changes in prevalence of binge eating before and after weight-loss surgery. University of New Mexico Graduate and Professional Student Association (GPSA) Student Research Grant, submitted 2/2017. **Role:** PI. (Status: Awarded, \$500)
9. Impacts of binge eating: an update on assessment, treatment outcomes, and potential mechanisms. University of New Mexico GPSA Student Research Grant, submitted 5/2016. **Role:** PI. (Status: Awarded, \$500)

GRANTS SUBMITTED - NOT FUNDED

1. Enhancing intersectoral CHW Networks to address social needs for marginalized populations. NIH Bridges to Care grant, submitted 3/2024. \$2,776,493. **Role:** Co-PI, co-wrote proposal. (Status: Not funded)
2. FrescaZona Medical Food Box Program: Building Healthy Communities. CommonSpirit Community Health Improvement Grant, submitted 9/2023. \$92,000. **Role:** Co-I. (Status: Not funded)
3. Building an action-oriented learning community to address stigma in healthcare. Submitted 3/2023 for Mayo Clinic and ASU Alliance for Health Care Collaborative Seed Grant Program. \$50,000 **Role:** PI, drafted proposal. (Status: Not funded)
4. FrescaZona Interventional Nutrition Center: Altering low-income community nutritional health inequity within a complex adaptive system. NIH ComPASS CHESI grant submitted 2/2023. \$5,849,871. **Role:** Co-I/Lead Research Investigator, co-authored proposal. (Status: Not funded)
5. Adapting WalkIt Prediabetes to improve health outcomes and study neighborhood social vulnerability. BCBS Mobilize Arizona grant submitted 09/2021. \$80,000 **Role:** Co-I, co-wrote proposal. (Status: Not funded)
6. WalkIT PreDiab: Testing an adaptive intervention to increase physical activity among prediabetics. R01 submitted 06/2021. **Role:** Co-I, drafted proposal. (Status: Not funded)
7. Implementing health-related quality of life assessment and predictive modeling for COVID-19 in Arizona Clinics targeting underserved populations. Tohono Oodham COVID-19 Relief Grant application submitted 04/2021. **Role:** Co-I, assisted with proposal development. (Status: Not funded)
8. Neighborhood walkability and moderation of an adaptive physical activity intervention among adolescents (WalkIT Adolescent). R01 submitted 02/2021. **Role:** Co-I, co-wrote proposal. (Status: Not discussed)
9. Responding to COVID with technology and patient reported data for rapid, out of office triage and real time clinical decision support. Patient-Centered Outcomes Research Institute (PCORI) COVID-19 Targeted PFA submitted 7/2020. **Role:** Site PI, drafted initial proposal. (Status: Not funded)
10. WalkIT Prediabetes: A SMART Trial testing adaptive versus static goal setting for physical activity adoption and maintenance. NIDDK R01 submitted 10/2020. **Role:** Co-I, drafted proposal. (Status: Not discussed)
11. Impacts of binge eating: an update on assessment, treatment outcomes, and potential mechanisms. University of New Mexico GPSA Student Research Grant, submitted 2/2016. **Role:** PI. (Status: Not funded)
12. Improving healthcare through advancing health assessments and research methodology. University of New Mexico GPSA Student Research Grant, submitted 2/2015. **Role:** PI. (Status: Not funded)
