

CURRICULUM VITAE

María José Sanín

MSc, PhD in Science-Biology

Born in Medellín, Colombia on July 21, 1982.

Nationality: Colombian.

Current position: Assistant Professor at the School of Mathematical and Natural Sciences, New College Arizona State University, West Campus. Email: msanin2@asu.edu Phone: (480) 7914505

Former position (2015-2021): Professor, Facultad de Ciencias y Biotecnología, Universidad CES. Medellín, Colombia.

EDUCATION

PhD Science-Biology Instituto de Ciencias Naturales, Universidad Nacional de Colombia (2009-2013).

Dissertation (Laureate): Ecological and Evolutionary Studies in genus *Ceroxylon* (Arecaceae), 2013.

MSc in Science-Biology Instituto de Ciencias Naturales, Universidad Nacional de Colombia (2008-2009).

Thesis (Meritorious): Systematics of *Ceroxylon* Bonpl. (Arecaceae: Ceroxyloideae), 2009.

BSc Biology, Universidad de Antioquia, 2000-2005.

RESEARCH

Research group Biología CES-EIA, Colciencias, Universidad CES (2012-present), director of group since 2016.

Research Group Wild Neotropical Palms, Colciencias, Universidad Nacional de Colombia (2007-present).

Biodiversity Unit, Corporación para Investigaciones Biológicas -CIB, Colombia 2003-2006.

TEACHING

MNS, New College, ASU: Fundamentals of Environmental Science 2021 Fall semester, Cellular Biology Laboratory 2021 Fall semester, Individualized Instruction 2021 Fall semester.

Universidad CES, Medellín, Colombia: Conservation Biology (module) 2014-2017, Population Ecology (module) 2014-2016, Plant evolution (module) 2015-2018, Introduction to Phylogenetics 2013-present, Biological interactions (module) 2016, Topics in Conservation Biology (module) (2016-present), Topics in Biodiversity and Conservation (2018 to present).

Universidad Nacional de Colombia, Bogotá, Colombia: Plant Biology, Working Scholar 2009, Palm Systematics and Ecology, Working scholar 2009. Vascular Plant Morphology, Working Scholar 2008.

Universidad Jorge Tadeo Lozano de Bogotá, Colombia: Biogeography 2007-2008, Botany 2008.

Thesis supervision: 5 pregraduate and 5 Masters theses, and other currently underway.

FIELD WORK

Botanical surveys, ethnobotanical interviews, mountain and lowland forest plots for community and population ecology, and collection of material for genetic studies in the following countries and years: Colombia 2003-2013; 2015-present; Peru 2007, 2009, 2010, 2012, 2013; Ecuador 2004, 2010, 2012, 2013; Venezuela 2012; Bolivia 2009, 2013.

GRANTS: Franklinia Conservation Grants (2020-2022), Universidad Nacional de Colombia, Dirección de Investigación (2020-2022), Minciencias Posdoctoral Research (2019-2020), Colciencias Geociencias 0710 (2015-2019), Gestión de Conocimiento e Investigación Universidad CES Mediana Cuantía (2014-2016 and 2015-

2017), Mínima Cuantía (2016 and 2021), Colciencias PhD National Grant (2009-2013), FP7-PALMS PhD Research Grant (2009-2013), Universidad Nacional de Colombia Dirección de Investigación (2008-2009 and 2012-2013), International Palm Society Research Grant IPS (2012-2013).

SCIENCE OUTREACH AND COMMUNICATION

I co-authored the initial proposal, conducted fieldwork and appear in the production of a documentary aimed at building awareness of the biological wealth and need for protection of the Tribuga Gulf in the Colombian Pacific. For information on the project: www.expediciontribuga.com.

News articles: Front page New York Times: <https://www.nytimes.com/2019/11/05/science/colombia-wax-palms-biodiversity.html>

Public outreach talks: *Science Thursdays*, Medellin Botanical Garden 2019, 2020; Radio: *Coloquio Ambiental* Universidad de Antioquia 2020.

SELECTED TALKS

PALMS Symposium Leticia 2012

Eunops 2013

World Palm Symposium Quindío 2015

Eunops 2017

International Biogeography Meeting Quito 2019

PUBLICATIONS (ARTICLES)

In review

SANÍN, M.J., MEJÍA-FRANCO F.G., PARIS, M., VALENCIA-MONTOYA, W.A., SALAMIN, N., KESSLER, M. OLIVARES, I.L., JARAMILLO, J.S. & CARDONA, A. Geogenomics of montane palms of the *Geonoma undata* complex reveals the effect of trans cordillera faults on topographic growth of the Colombian Andes during the Plio- Pleistocene boundary. Submitted to the Journal of Biogeography.

CORREA-AGUDELO, V., **SANÍN, M.J.**, D.J. TUBERQUIA. Análisis de la vegetación en la franja transicional bosque altoandino-páramo, en el páramo de Belmira-Santa Inés, Antioquia. Submitted to Caldasia.
