Leadership

2014-Current Founding Director, Center for Biodiversity Outcomes, Arizona State University

- Envisioned and executed the establishment of academic boundary organization to cultivate innovation among ASU's diverse scholars and link this scholarship to practitioner needs in governmental, NGO and corporate sectors.
- Developed strategic plan, led staff hiring, engaged faculty affiliates and program leads. Supported alignment of activities by securing, coordinating, and configuring resources, capacity, and projects to address the most critical science questions, threats and strategies.
- Developed a fundraising and development plan for the Center's growth, which grew from a modest internal investment to multi-million dollar enterprise.
- Established partnership programs with a dozen external organizations, organized collaborative efforts among faculty and with partners and served as the primary spokesperson for CBO to internal and external audiences to cultivate support and promote CBO's mission and vision.
