### **Course Curriculum**

#### MED 417: Impact of Violence on Health

This was a substantial redesign of the original C session course in Fall 2021 and addition of a new A and B session in Fall 2022. This involved revising the learning objectives, overview page, assignments, and adding a course map. Nine chapter quizzes on the course content were added to the modules. An additional module and learning materials were added to the course and another module was revised with new learning materials. The syllabus was updated to the revised template and has language about equity and inclusion and expected learning outcomes were connected to modules objectives and assignments.

### **Course Lead**
