

Curriculum Vitae

John M. (“Marty”) Anderies

School of Human Evolution and Social Change and
School of Sustainability
Arizona State University • Tempe, AZ 85287-2402
(480) 965-6518 • m.anderies@asu.edu

Education

- 9/93-8/98 Institute of Applied Mathematics, University of British Columbia, Vancouver, Canada.
Ph.D., Applied Mathematics, August, 1998. Supervisor: C.W. Clark.
Thesis title: Culture, Economic Structure, and the Dynamics of
Ecological Economic Systems.
- 8/83-05/87 Department of Petroleum Engineering, Colorado School of Mines, Golden, CO, USA.
B.Sc., Petroleum Engineering, May, 1987.

Awards & Fellowships

- 2014 Faculty Achievement Award for Defining Edge Research in Natural Sciences/Math, Arizona State University.
- 2008 Promotion and Tenure Exemplar, Arizona State University.
- 2007 Early Career Development (CAREER) Award. National Science Foundation.
- 2006 Dean’s Distinguished Teaching Award, College of Liberal Arts and Sciences, Arizona State University.
- 1997-1998 University Graduate Fellowship, University of British Columbia.
- 1997 Excellence in Teaching Prize, University of British Columbia.
- 1996 Graduate Teaching Award, Mathematics Department, University of British Columbia.
- 1993-1995 University Graduate Fellowship, University of British Columbia.

Professional Experience

- 6/14- *Professor*, School of Human Evolution and Social Change and School of Sustainability, Arizona State University, Tempe, Arizona. Also appointed to the new School of Complex Adaptive Systems in 2021 when it was founded.
- 1/23- *Assistant Director for Research*, Julie Ann Wrigley Global Futures Laboratory, Arizona State University, Tempe, Arizona.
- 9/22- *Adjunct Faculty*, Simon A. Levin Mathematical, Computational and Modeling Sciences Center, Arizona State University, Tempe, Arizona.
- 8/08-06/14 *Associate Professor*, School of Human Evolution and Social Change and School of Sustainability, Arizona State University, Tempe, Arizona.
- 1/07-07/08 *Assistant Professor*, School of Human Evolution and Social Change and School of Sustainability, Arizona State University, Tempe, Arizona.
- 7/99-7/02 *Postdoctoral Research Fellow*, Division of Sustainable Ecosystems, Commonwealth Scientific and Industrial Research Organization, Canberra, Australia. Advisor: Brian Walker.

- 9/98-7/99 *Postdoctoral Research Fellow*, Peter Wall Institute for Advanced Studies, University of British Columbia. Advisor: Priscilla Greenwood.
- 9/93-8/98 *Doctoral Student*, Department of Mathematics, University of British Columbia. Advisor: Colin W. Clark.
- 8/87-11/90 *Production Engineer*, Oryx Energy Company, Valencia, California.

Research Activities

Sponsored Research Projects

NSF Innovation Engine: Southwest Sustainability Innovation Engine (SWSIE). **Role: Proposal writing team, Lead, Systems Transformation Working Group.** PI: Peter Schlosser. Total Project \$2,000,000 Phase 1 (years 1 and 2), \$160,000,000 Phase 2 (years 3-10). Start date: 3/1/2024. Duration 24 months (Phase 1), 8 years (Phase 2).

NSF Global Center: Clean Energy and Equitable Transportation Solutions (CLEETS) NSF-UKRI Global Center. **Role: PI of ASU Subcontract.** PI: Ashish Sharma. Total project: \$5,000,000. ASU subcontract: \$332,250. Start date: 10/1/2023. Duration: 60 months.

NSF PIRE: International partnerships for accelerating climate-ready sustainable and clean urban transportation. **Role: PI of ASU Subcontract.** PI: Ashish Sharma. Total project: \$1,499,886. ASU subcontract: \$327,545. Start date 01/01/2023. Duration 36 months.

NSF NNA Research: AC³TION - Alaska Coastal Cooperative for Co-producing Transformative Ideas and Opportunities in the North. **Role: Co-PI of ASU Subcontract.** Total project: \$13,500,000. PI: Shauna Burnsilver. \$424,999. Start date 09/01/2021. Duration 60 months.

NSF NNA Research: Collaborative Research: Frozen Commons: Change, Resilience and Sustainability in the Arctic. **Role: Co-PI of ASU Subcontract.** Total project: \$2,998,058. PI: Shauna Burnsilver. \$1,025,411. Start date 09/01/2021. Duration 60 months.

NSF - NNA Track 1: Collaborative Research: ARC-NAV: Arctic Robust Communities-Navigating Adaptation to Variability **Role: Co-PI.** PI: Abigail York. Other Co-PIs: S. Burnsilver, S. Pfirman. \$1,415,570. Start date: 09/18/2019. Duration: 60 months.

NSF - CNH2-L: Transition Dynamics in Integrated Urban Water Systems. **Role: Co-PI.** PI: Margaret Garcia. Other Co-PIs: E. Koebele, A. Deslatte, G. Hornberger. \$1,599,992. Start date: 08/01/2019. Duration: 54 months.

NSF - IBSS: The Evolution of Social Networks and the Robustness of Human Societies to Population Growth and Climate Change: A Deep Time Perspective **Role: PI of ASU subcontract.** Total project: \$998,350. ASU subcontract: \$42,239. Start date: 08/31/2015. Duration: 48 months.

NSF- Belmont Forum: Multi-scale adaptations to global change and their impacts on vulnerability in coastal areas. **Role: PI of ASU subcontract.** Total project: ≈\$1,450,000. ASU subcontract: \$211,508. Start date: 08/31/2013. Duration: 36 months.

NSF-Biocomplexity CNH: When Strengths Can Become Weaknesses: Emerging Vulnerabilities in Coupled Natural Human Systems under Globalization and Climate Change. **Role: PI.** Co-PIs: M. Janssen, R. Aggarwal, R. Muneepreakul. \$1,499,093. Start date: 09/13/2012. Duration: 48 months.

NSF-Biocomplexity CNH: The Complexities of Ecological and Social Diversity: A Long-Term Perspective. **Role: Co-PI.** PI: Margaret Nelson. Other Co-PIs: J. Norberg, M. Hegmon. \$1,425,000. Start date: 09/01/2012. Duration: 42 months.

NSF RCN-SEES: Sustainability of Marine Renewable Resources in Subarctic Systems Under Incumbent Environmental Variability and Human Exploitation. **Role: Co-PI.** PI: Lorenzo Ciannelli. Other Co-PIs: C. Webb, K. Bailey. Start date: 09/15/2012. Duration: 48 months.

NOAA: Risk perception, Institutions, and Water Conservation: Enhancing Agricultural Adaptation to Future Water Scarcity in Central Arizona. **Role: Co-PI.** PI: Hallie Eakin. Other Co-PIs: A. York, T. Lant. \$300,000. Start date: 09/15/2012. Duration: 24 months.

NSF-Biocomplexity CNH: Collaborative Research: Determinants of Grassland Dynamics in Tibetan Highlands: Livestock, Wildlife, and the Culture and Political Economy of Pastoralism. **Role: Co-PI.** PI: A. Smith, . \$293,390. Start date: 09/15/2008. Duration: 60 months.

NSF-CAREER: Local Context and the Dynamics of Social-Ecological Systems: Beyond One-size-fits-all Solutions to Environmental Problems. **Role: PI.** \$407,809. Start date: 03/01/2007. Duration: 60 months.

NSF-HSD: AOC: Integrated Analysis of Robustness in Dynamic Social Ecological Systems. **Role: PI.** Co-PI's: C. Perrings, M. Janssen, A. Kinzig, and A. Rodriguez. \$749,000. Start date: 09/01/2005. Duration: 42 months.

NSF-Biocomplexity CNH: Long-Term Coupled Socioecological Change in the American Southwest and Northern Mexico. **Role: Co-PI** and Co-Director. PI: Margaret Nelson. Other Co-PI's: M. Hegmon, K. Kintigh, B. Nelson. \$536,000. Start date: 11/01/2005. Duration: 24 months.

NSF-Biocomplexity CNH: Urban Landscape Patterns: Complex Dynamics and Emergent Properties. **Role: Co-PI** on ASU subcontract. PI: Marina Alberti, University of Washington. PI on ASU subcontract: J. Wu. Other Co-PI's: C. Redman. \$430,000. Start date: 09/15/2005. Duration: 36 months.

NSF: UBM: Interdisciplinary Training for Undergraduates In Biological And Mathematical Sciences At ASU. **Role: Co-PI** and Co-Director. PI: Yang Kuang. Other Co-PI's: J. Elser, C. Castillo-Chavez, H. Smith. \$640,000. Start date: 09/15/04. Duration: 48 months.

NSF: Enabling The Study Of Long-Term Human And Social Dynamics: A Cyberinfrastructure for Archaeology. **Role: Co-PI.** PI: Keith Kintigh. Other Co-PI's: K. S. Candan, P. McCartney, M. Nelson. \$100,000. Start date: 9/15/2004. Duration: 12 months.

CLAS Multi-Investigator Proposal Development Grant: Sociopolitical complexity and human-environment relations. **Role: Co-Pi.** PI: M. Nelson. \$20,000. Start date: 02/31/2003. Duration: 1 year.

Peer-Reviewed Journal Articles

(Invited Keynote) “Governance of Shared Resources in the Face of Global Change: Some Experimental and Theoretical Reflections”, Asia Region Biennial IASC Meeting Asian Institute of Technology, Thailand, July 14, 2018.

(Invited) “Governing our shared natural resources in the Anthropocene: Knowledge, institutions, and human behavior ”, Forestry Department Seminar, Northern Arizona University, October 3, 2018.

(Invited) “Resilience Theory and Social Ecological Systems.” Paleoclimate-Resilience Workshop for Pre-Modernists, Princeton University, September 9, 2017.

(Contributed) “The SES Library: A tool for comparative case study analysis and model development” Biennial Conference, International Association for the Study of the Commons, Utrecht, Netheralands, July, 14, 2017.

(Invited) “Smallholder agricultural systems, food security, and the provision of local public goods.” Stockholm seminar, The Royal Swedish Academy of Sciences, Stockholm May 9, 2017.

(Invited) “Institutions and the Performance of Coupled Infrastructure Systems.” IRSTEA Occasional Lecture, Clermont Ferrand, March 21, 2017.

(Invited) “Exploring Robustness Fragility, and Change in Human Societies: A View through the Lens of Coupled Infrastructure Systems.” Departmental Lecture, Utrecht University History Department, Utrecht, Netherlands, March 17, 2016.

(Invited) “Understanding the Configural Nature of Institutions and Effective Natural Resource Governance.” Departmental Lecture, Tsinghua University School of Public Policy and Management, Beijing, China, June 13, 2016.

(Invited) “Landscape change, carbon dynamics, and planetary boundaries.” The 4th International Forum on Landscape Sustainability Science, Beijing, China, June 7, 2016

(Invited) “The Robustness of Small Scale Agricultural Systems: Food Security in the Face of Global Change.” ASU Morrison School of Agribusiness Seminar Series, February 2015.

(Invited) “Commons Dilemmas in Coupled Infrastructure Systems: Governance challenges, complexity, and scale.” JRC Roundtable on CAS and Energy Conservation Policy, Ispra,

Italy, February 2015.

(*Contributed*) “Understanding Persistence and Change in Social-Ecological Systems through a Coupled Infrastructure Systems Lens.” 15th Biennial International Association for the Study of the Commons Conference, Edmonton, CA, May 25-29 2015.

(*Invited*) “Scaling up Governance in the Anthropocene.” Ecosystem Science and Management Departmental Seminar, Texas A & M University, November 17, 2015.

(*Invited*) “Robustness - Fragility Tradeoffs in Coupled Infrastructure Systems and Design Principles for Resilient FEWS.” Human Adaptation to Climate Change: Impacts on the Resilience of Regional Food, Energy, and Water Systems, Ohio State University, November 2015.

(*Invited, with Catherine Tucker*) “Understanding Human - Environment Interactions Through the Institutional Analysis and the SES Framework Lens.” MtnClim 2014, Meeting of the Consortium for Integrated Climate Research in Western Mountains, Midway UT, USA, September 17, 2014.

(*Invited*) “Institutions, Biophysical Context, and the Robustness of Small - Scale Mountain Irrigation Systems.” MtnClim 2014, Meeting of the Consortium for Integrated Climate Research in Western Mountains, Midway UT, USA, September 17, 2014.

(*Contributed*) “Robustness, vulnerability and adaptive capacity of small-scale irrigated irrigation systems: The Pampa System in Nepal.” Workshop on the Workshop 5, Indiana University, Bloomington, Indiana, USA, June 21, 2014.

(*Contributed*) “Social Network Structure and Collective Action in Uncertain Commons Dilemmas.” Resilience 2014, Montpellier, France, May 4-8, 2014.

(*Invited*) “Exploring Tipping Points and Planetary Boundaries using a Stylized Climate Model.” 2013 ICMS Tipping Points Workshop, Edinburgh, Scotland, UK, September, 2013.

(*Invited*) “The Topology of Non-Linear Global Carbon Dynamics: From Tipping Points to Planetary Boundaries.” 2013 SIAM Conference on Dynamical Systems Snowbird, UT, USA, May, 2013.

(*Contributed*) “Changing context and the Adaptive Capacity of Small-Scale Irrigated Agricultural Systems.” IASC 2013: Commoners and the Changing Commons Kita Fuji, Japan June, 2013.

(*Contributed*) “Global Change, Water Scarcity, and the Adaptive Capacity of Small-Scale Irrigated Agricultural Systems.” Water for Food Global Conference, Lincoln, Nebraska, USA, May, 2013.

(*Invited*) “Sustainable Livelihoods: Robustness-Fragility Trade-offs in Coupled Social-Ecological Systems.” Science of Sustainability Colloquium University of Michigan Institute for Complex Adaptive Matter and the University of Michigan Energy Institute, Ann Arbor, Michigan, USA, February, 2013.

(*Invited*) “Embedding Built Environments in Social-Ecological Systems.” Resilience and the Built Environment Workshop ETH, Zurich, January 2013.

(*Invited*) “Governance and the Capacity of Small-Scale Social-Ecological Systems to Adapt to Global Change.” National Academy of Science Sustainability Symposium: Science, Innovation, and Partnership for Sustainability Solutions. The National Academy of Science, Washington, D.C., USA, May 11, 2012.

(Invited Participant) “The SES Framework and Public Policy”, Workshop on New Policy Theories at the School of Public Affairs at UC Denver, Denver Colorado, USA, October 5, 2012.

(Invited) “Current Directions in Resilience Research: Perspectives from the Resilience Alliance.” Annual Natural Hazards Research and Applications Workshop, Natural Hazards Center, University of Colorado, Broomfield, CO, USA, July 11, 2011.

(Invited) “Assessing the capacity of small-scale agricultural systems to cope with climate change: A multiple methods approach.” Dartmouth Decisions Seminar Series, Hanover, NH, USA, May 17, 2011.

(Invited) “Design Principles for Robust Governance Systems.” Joint seminar sponsored by the Duke Center for Sustainability & Commerce at the Nicholas Institute for Environmental Policy Solutions and the Nicholas School of the Environment Division of Earth and Ocean Sciences. Duke University, Durham, NC, USA, March 22, 2011.

(Invited Panelist) “Comments on Lost at Sea: Putting people in the loop.” AAAS Annual Meeting, Washington, DC, USA, February 20, 2011.

(Invited) “Robbing Peter to pay Paul: Managing difficult trade-offs in uncertain resource management situations.” Stockholm Seminar, Stockholm, Sweden, May 4, 2010.

(Contributed) “Complexity, Conservation of Fragility, and Institutional Change.” CIRAD, Montpellier, France, July 10, 2010.

(Invited Panelist) “Socio-ecological Resilience and Disaster Risk Reduction: Prioritizing the Gaps in a Changing World.” Yale School of Forestry and Environmental Studies Spring Forum. Yale University, New Haven, CT, USA, April 23-24, 2009.

(Invited) “Niche Construction and Food Production Strategies in Arid Environments.” Dynamic Deserts: Resource Uncertainty in Arid Environments, ASU, USA, February 26, 2009.

(Invited) “Coordination and Cooperation in Asymmetric Commons Dilemmas.” Tragedy of the Commons 40th Anniversary Retrospective, Adrian College, Adrian, Michigan, USA, November 21, 2008.

(Invited Panelist) “Resilience Thinking: Adapting to System-Shifting Social and Ecological Change.” Bioneers Conference, San Rafael, California, USA, October 16-19, 2008.

(Invited) “Adaptation, resilience, and capacity to cope with environmental change.” 8th Annual Syracuse Symposium on Environmental and Energy Systems: “Creating Resilience in Sustainable Communities.” Syracuse Center of Excellence in Environmental and Energy Innovations, Syracuse, NY, USA, September 29-30, 2008.

(Invited Commentator) “Protecting a Natural Resource Legacy While Promoting Resilience: Can It Be Done?.” Environmental Resilience & Law Symposium, University of Nebraska, Lincoln, Nebraska, USA, September 25, 2008.

“Ecological variation, institutional adaptation, and long-term social-ecological change: Lessons from the past.” 93rd Ecological Society of America Annual Meeting, Milwaukee, Wisconsin, USA, August 3-8, 2008.

“Uncertainty and the evolution of local institutions.” International Association for the Study of the Commons Conference 2008, University of Gloucestershire, Cheltenham, England, July 14-18, 2008.

“Uncertainty, Robustness, and learning in Sustainable Resource Management.” 13th International Symposium on Society & Resource Management, Park City, Utah USA, June, 2007

(Invited participant) Resilience and Adaptation to Climate Change: Linkages and a new Agenda. Hosted by Tyndall Centre for Climate Change Research and the Resilience Alliance. Blakeney, Norfolk, UK, April 2007.

(Invited) “Living in an uncertain world: Robustness-vulnerability trade-offs in natural resource management.” Stockholm Seminar Series, Stockholm, Sweden, September, 2006.

(Invited) “Diversity in Subsistence Strategies and Transformation: The Hohokam of the Phoenix Basin.” Paper presented in the invited session: Transformation and Stability in Socioecological Systems: Archaeological Perspectives on Resilience Theory at the Annual Meeting of the American Anthropological Association, Washington, D.C., December, 2005.

(Invited) “Agave as Infrastructure: Vulnerability and Crop Diversity in Northern Mexico.” Co-presented with Ben Nelson, SHESC, ASU, in the invited session: Transformation and Stability in Socioecological Systems: Archaeological Perspectives on Resilience Theory at the Annual Meeting of the American Anthropological Association, Washington, D.C., December, 2005.

(Contributed) “Loss of resilience, crisis, and institutional change: Lessons from an intensive agricultural system in southeastern Australia.” Paper presented at the 6th Open Meeting of the Human Dimensions of Global Environmental Change Research Community, Bonn, Germany, October, 2005.

(Contributed) “Institutional Design: Directions for the 21st Century.” Annual Meeting of the American Association for the Advancement of Science, Washington, D.C., February, 2005.

(Contributed) “Robustness and Large-Scale Change in Social-Ecological Systems: The Hohokam of the Phoenix Basin.” Workshop on the Workshop of Political Theory and Policy Analysis, Bloomington Indiana, June, 2004.

(Contributed) “Living in the city: population dynamics when resources are predictable and predators few.” Annual Meeting of the Ecological Society of America, Portland OR, Aug. 2004.

(Contributed) “A framework to analyze the robustness of social-ecological systems from an institutional perspective.” Tenth Biennial Conference of the International Association for the Study of Common Property, Oaxaca Mexico, August, 2004.

(Invited) “Robust strategies for managing rangelands with multiple stable attractors.” Stochastic Modeling Seminar Series, ASU, April, 2003.

(Invited) “Subsistence constraints and institutional adaptation in a simple population/resource society, a dynamical systems perspective.” Mathematical Biology Seminar, Mathematics Department, ASU, March, 2003.

(Invited participant) Adaptation and resilience in rangeland social-ecological systems. Workshop sponsored by CSIRO Australia. Townsville, Australia, July, 2003.

(Invited participant and manuscript co-author) “Design Principles for Robustness of Institutions in Social-Ecological Systems.” The Robustness in Coupled Natural and Human Systems Workshop, Santa Fe Institute, Santa Fe, New Mexico, May, 2003.

(Invited participant and manuscript co-author) “Robustness of Social-Ecological Systems to Spatial and Temporal Disturbance Regimes.” The Resiliency and Change in Ecological Systems Workshop, SFI, Santa Fe, New Mexico, October, 2003.

(Invited) “Resilience and robust management in a managed, fire driven rangeland system.” ASU Department of Geography Colloquium, November, 2002.

(Invited) “Economic growth, demographics, and renewable resources: A dynamical systems approach.” Workshop on Population, Economy and the Environment: Modeling and Simulating their Complex Interaction, Max Planck Institute for Demographic Research, Rostock Germany, May, 2001.

(Contributed) “Demographics, natural resources and economic development.” International Society of Ecological Economics Conference, Canberra, Australia, July 2000.

(Contributed) “Complex adaptive systems as an integrative framework for ecological economic systems.” International Society of Ecological Economics Conference, Canberra, Australia, July 2000.

(Contributed) “The effects of environmental harshness and noise on phytoplankton competition.” Rocky Mountain Mathematics Consortium Summer Conference on Models in Population Biology and Epidemiology, University of Wyoming, July 1998.

Teaching Activities

Courses Taught:

Arizona State University: AML 253–Introduction to Mathematics for the Life and Social Sciences, SOS 510–Perspectives on Sustainability, BIO 320–Fundamentals of Ecology, BIO 424–Mathematical Models in Ecology (6), BIO 311–Biology and Society (3), BIO 591–Institutions, Governance, and Ecosystem Management, BIO 591–Economics, Ecology, and the Environment, BIO/ASB 591–Institutional Analysis, BIO 394–Numeracy in the Life and Social Sciences. SOS 511–Quantitative Methods in Sustainability, BIO 424/ASM 591–Dynamic Modeling in Social and Ecological Systems (8), ASB 394–Rules, Games, and Society (8), SOS 494–Decision Making and Collective Action for Sustainability (2), AML 100–Introduction to Applied Mathematics for the Life and Social Sciences, SOS 591–Dynamic Modeling for Sustainability Science (2).

University of British Columbia: MATH 100 - Calculus for the Life Sciences (differential), MATH 101 - Calculus for the Life Sciences (integral), MATH 140 - Calculus for Business and Economics (differential), MATH 141 - Calculus for Business and Economics (integral).

Undergraduate Student Mentoring:

Spencer Perillo, Sustainability Undergraduate Research Experience (SURE), School of Sustainability, Spring 2018.

Sarah Schultz, Honors Thesis Advisee, School of Life Sciences. “Indigenous Land Rights and Institutional Nesting: The Sami of Sweden and Norway”. Spring 2009.

Leslie Padrnos, UBM: Interdisciplinary Training For Undergraduates In Biological And Mathematical Sciences At ASU participant. Project: “Mathematical Modeling and the Decisions that Influence the Mode of delivery in America”. Spring 2007.

Paula Piedrahita, UBM: Interdisciplinary Training For Undergraduates In Biological And Mathematical Sciences At ASU participant. Project: “Climatic Affects of over harvesting in Tropical Rain forests: A Mathematical Model Approach”. Spring 2007.

Katherine Mason, UBM: Interdisciplinary Training For Undergraduates In Biological And Mathematical Sciences At ASU participant. Project: “Simple mathematical models of parasitism: Applications to human disease”. Fall 2006.

Brian Webb, Honors thesis advisee, Biology and Society Program, School of Life Sciences. Thesis title: “An ecological footprint analysis of energy use patterns in Arizona”. Spring 2006.

Graduate Student Mentoring:

Aurora Cossairt, Ph.D. in progress, School of Sustainability, Committee Chair.

Adam Weichman, Ph.D. in progress, School of Sustainability, Committee Chair.

Claudia Geffner Fuenmayor, Ph.D. in progress, School of Sustainability, Committee Chair.

Sola Kim, Ph.D. in progress, School of Sustainability, Committee Chair.

Hasibul Hassan, Ph.D. in progress, School of Human Evolution and Social Change, Committee Chair.

Juan Renova, Ph.D. in progress, School of Human Evolution and Social Change, Committee Chair.

Yiran Wang, Ph.D. in progress, School of Human Evolution and Social Change, Committee Co-Chair.

Xin Wang, Ph.D. in progress, School of Human Evolution and Social Change, Committee Member.

Kelly Claborn, Ph.D. Spring 2024, School of Human Evolution and Social Change, Committee Member. Exploring the Spread, Use, and Impact of Buzzwords on Decision Making in Conservation: A Mixed Methods Approach. Present position: Research officer at Sequoia Climate Foundation.

Alejandro Bellon, Ph.D. Summer 2024, School of Life Sciences, Committee Member. The Jaguar and the Farmer: The Impact of Jaguars and Jaguar Caused Trophic Cascades on Agricultural Livelihoods in Mexico

Tashi Gurung, , Ph.D. Spring 2023, School of Human Evolution and Social Change, Committee Co-Chair. Dissertation Title: Is Tourism a Boon or Bane? Exploring the Nexus of Tourism Impacts, Livelihood, and Migration: A Case Study of the Himalayan Region of Upper Mustang, Nepal. Present position: Qualitative Management Research Analyst, EdPlus at ASU.

Brenna Jungers, Ph.D. Spring 2023, School of Sustainability, Committee Member. Dissertation Title: Managing Natural Capital for Nature-Based Recreation in the Anthropocene.

Present position: Assistant Professor, Department of Agricultural Economics, Mississippi State University.

Jack Pringle, Ph.D. Spring 2021, School of Human Evolution and Social Change, Committee Chair. Dissertation Title: Interrogating Models in Population Dynamics through a Behavioral Kinetic Lens.

Jagadish Parajuli, Ph.D. Spring 2021, School of Sustainability, Committee Member. Dissertation Title: Governing Farmer-Managed Irrigation Systems in a Rapidly Changing World.

Ute Brady, Ph.D. Spring 2020, School of Human Evolution and Social Change, Committee Chair. Dissertation title: Robust Conservation Anarchy: Comparing Treaty Institutional Design For Evidence Of Ostrom'S Design Principles, Fit, And Polycentricity. Completed postdoc at the Maxwell School of Public Policy, Syracuse University, now Postdoc at ASU.

Hoon Shin, Ph.D. Spring 2020, School of Human Evolution and Social Change, Committee Chair. Dissertation title: Internal Stresses and Social Feedback Mechanisms in Social-Ecological Systems: A Multi-Method Approach to the Effectiveness of Exit and Voice. Completed two-year Postdoc at the Lee Kwan Yew School of Public Policy, National University of Singapore, now Postdoc at Purdue University.

Bingbing Zhou, Ph.D. Spring 2020, School of Sustainability, Committee Member. Scientific Foundations and Problem-Driven Studies of Landscape Sustainability: Sustainability of Human-Environment Systems Through the Lens of the Landscape. Present position: Assistant Professor, Ocean University of China.

Sechindra Vallury, Ph.D. Spring 2019, School of Sustainability, Committee Co-Chair. Institutions for Provision of Shared Infrastructure: Insights from Irrigation Systems in South India. After a Postdoctoral Fellowship in the W.A. Franke College of Forestry & Conservation at the University of Montana, now Assistant Professor in the Odum School of Ecology, University of Georgia and Director of Policy at the River Basin Center.

Nicolas Gauthier, Ph.D. Spring 2019, School of Human Evolution and Social Change, Committee Member. Dissertation title: Agricultural food transfers in a dynamic environment: A computational modeling approach. Present position: Assistant Curator of Artificial Intelligence for Cultural and Biological Diversity at the Florida Museum of Natural History, University of Florida.

Elicia Ratajczyk, Ph.D. Fall 2018, School of Human Evolution and Social Change, Committee Chair. Dissertation title: From Design Principles to Principles of Design: Resolving Wicked Problems in Coupled Infrastructure Systems Involving Common-Pool Resources. Present position: Research Scientist and Network Facilitator, Institute for the Built Environment, Colorado State University.

Christine Sturm, Ph.D. Spring 2018, School of Sustainability, Committee Member. Dissertation title: Germany's Energy Transition Experiment: A Case Study about Guiding Decisions and Steering Large Socio-Technical Systems in Desired Directions.

Cathy Rubinos, Ph.D. Fall 2017, School of Sustainability, Committee Chair. Dissertation title: Commons Governance for Robust Systems: Irrigation Systems Study Under a Multi-Method Approach. Present position: Tenured Assistant Professor at Universidad Del Pacifico, Lima, Peru.

Miran Bozicevic, Ph.D. Summer 2017, School of Human Evolution and Social Change, Committee Chair. Dissertation title: The Semiotic Nature of Power in Social-Ecological Systems.

Mar Mancha, Ph.D. Spring 2017, School of Life Sciences, Committee Member. Dissertation title: Going Beyond Paper Parks Towards Effective Management: The Role of Institutions and Governance of Marine Reserves in the Gulf of California, Mexico. Sustainable Seafood Project Manager at the Center for Marine Biodiversity and Conservation at the Scripps Institution of Oceanography, University of California San Diego after a Postdoctoral Researcher appointment at Duke University.

Michael Bernstein, Ph.D. Spring 2016, School of Sustainability, Committee Member. Dissertation title: Responsible Innovation and Sustainability: Interventions in Education and Training of Scientists and Engineers. Present position: Assistant Research Professor, School for the Future of Innovation in Society, College of Global Futures, ASU following a Research Scientist appointment at the Genok Centre for Biosafety in Tromso, Norway.

David Yu, Ph.D. Spring 2015, School of Sustainability, Committee Chair. Dissertation title: Robustness of social-ecological system under global change: Insights from community irrigation and forestry systems. Present position: Associate Professor at Purdue University.

Julie Ripplinger, Ph.D. Spring 2015, School of Life Sciences, Committee Member. Dissertation title: Ecology and the City: A Long-Term Social-Ecological Examination of the Drivers and Diversity of Urban Vegetation. Present position: independent researcher following Postdoc at UC Riverside.

Allain Barnett, Ph.D. Spring 2014, School of Human Evolution and Social Change, Committee Chair. Dissertation title: From policy instruments to action arenas: toward robust fisheries and adaptive fishing households in southwest Nova Scotia. After Postdoc at the Institute for Water and the Environment at Florida International University, now Policy Analyst, Natural Resources Canada.

Jacob Freeman, Ph.D. Spring 2014, School of Human Evolution and Social Change, Committee Co-Chair. Dissertation title: Feedbacks, Critical Transitions and Social Change in Forager-Resource Systems: An Integrated Modeling and Ethnoarchaeological Analysis. Present position: Associate Professor and Program Director of Anthropology, Utah State University.

Michael Merrill, Ph.D. Spring 2014, School of Human Evolution and Social Change, Committee Co-Chair. Dissertation title: Increasing Scales of Social Interaction and the Role of Lake Cahuilla in the Systemic Fragility of the Hohokam System (A.D. 700-1100). Present position: County Archaeologist, Riverside County, California.

Marie Fujitani, Ph.D. Spring 2014, School of Life Sciences, Committee Member. Dissertation title: Marine Reserves With Fisheries Management: Regulations Aimed At People To Hit Biological Targets.

Auriane Koster, Ph.D. Spring 2013, School of Sustainability, Committee Chair. Dissertation title: An Institutional Approach to Understanding Energy Transitions.

Kenny Salau, Ph.D. Spring 2013, School of Human Evolution and Social Change, Committee Member. Dissertation title: Assessing the Effects of Institutional and Spatial Arrangements in Analytical and Computational Models of Conservation.

Penny Langhammer, Ph.D. Fall 2013, School of Life Sciences, Committee Member. Dissertation title: Chytridiomycosis In The Direct-Developing Frogs Of Puerto Rico.

David Murillo, Ph.D., Fall 2012, School of Human Evolution and Social Change, Committee Co-Chair. Dissertation title: Cities in Ecology: Settlement Patterns and Diseases.

Oliver Hyman, Ph.D., Spring 2012. School of Life Sciences, Committee Member. Dissertation title: The Ecology Of Chytridiomycosis In Boreal Chorus Frogs (*Pseudacris maculata*)

Haley Paul, M.Sc., Spring 2010. School of Sustainability, Committee Chair. Thesis Title: Agricultural water use and the 1980 Groundwater Management Act: institutional change and water conservation in South-Central Arizona, USA.

Lisa Dirks, M. Sc., Fall 2010. School of Sustainability, Committee Member. Thesis Title: The past and future of biofuels a case study of the United States using the institutional analysis and development framework.

Brigitte Hogan, Ph.D., Fall 2010. School of Life Sciences, Committee Member. Dissertation title: The Plateau Pika: A keystone engineer on the Tibetan Plateau.

Libby Larson, Ph.D., Fall 2010. School of Life Sciences, Committee Member. Dissertation title: Water and Nitrogen in Designed Ecosystems: Biogeochemical and Economic Consequences.

Christopher Bang, Ph.D., Fall 2010. School of Life Sciences, Committee Member. Dissertation title: Effects of Urbanization on Arthropod Diversity, Community Structure and Trophic Dynamics.

Nathan Moorehouse, Ph.D., Spring 2009. School of Life Sciences, Committee Member. Dissertation title: Limiting nutrients, female choice, and male color in progress.

Jennifer Rupnow, M.Sc., Fall 2007. School of Life Sciences, Committee Member. Thesis title: Recreational fisheries and the ecology and management of targeted resources in the northern gulf of California, Mexico.

James Heffernan, Ph.D., Spring 2007. School of Life Sciences, Committee Member. Dissertation title: Wetland establishment, disturbance response, and patch interactions.

Marea Baggetta, M.Sc., Spring 2005. School of Life Sciences, Committee Co-chair. Thesis title: Elegy for the Salt River: Successional Tales of a Social-Ecological System.

Postdoctoral Fellow Mentoring:

Koorosh Azizi. Project: Performance and Equity in Urban Water Systems. Present position: second-year of Postdoc, School of Sustainable Engineering and the Built Environment, ASU.

Jacopo Baggio. Project: The configural nature of Institutions through the lens of Ostrom's Institutional Design Principles. Present position: Associate Professor in the School of Politics, Security and International Affairs at the University of Central Florida.

Oguzhan Cifdaloz. Project: Robustness-vulnerability trade-offs in social-ecological systems. Present position: Assistant Professor, Department of Electrical and Electronics Engineering, School of Engineering, Çankaya University, Ankara, Turkey.

Madhu Katti. Project: : Local knowledge, traditional institutions and biodiversity reserve management in India. Present position: Associate Professor at North Carolina State University.

Eyal Shochat. Project: Productivity, inequality, and biodiversity loss in human-dominated ecosystems. Present position: Adjunct Senior Lecturer, Faculty of Natural Sciences, Ben-Gurion University of the Negev, Israel.

Ashok Regmi. Project: Governance of irrigation and forestry systems in Nepal.

Professional Service and Activities

Editorial Activities:

Associate Editor - *Ecology and Society, Ecosystems*

Guest Editor - *Proceedings of the National Academy of Sciences*

Editorial Board Member - *Nature Scientific Reports, Regional Environmental Change, Sustainability*

Manuscript referee:

Science, Proceedings of The National Academy of Sciences, Plos One, Nature Energy, Water Economics and Policy, Sustainability Science, Marine Policy, Nature Communications, Political Studies, Geography and Sustainability, Journal of Rural Studies, World Development, Environmental And Resource Economics, Ecological Economics, Journal of Environmental Economics And Management, Conservation Ecology, Journal of Economic Behavior And Organization, The American Naturalist, Journal of Environmental Management, Journal of Vegetation Science, Siam Journal of Applied Mathematics, Australian Journal of Botany, Journal of The History of Biology, Canadian Journal of Economics, Ecosystems, Journal of Theoretical Biology, Rangeland Ecology & Management, Natural Resource Modeling, International Journal of The Commons, Theoretical Population Biology, Regional Environmental Change, Ecological Applications, Frontiers In Ecology And The Environment, Marine Resource Economics, Human Ecology Review, American Journal of Agricultural Economics, Land Economics, Water Resources Research.
