ALEXANDRA BREWIS [SLADE]

School of Human Evolution and Social Change
Arizona State University
Tempe, AZ 85287-2402, USA

Email: Alex.Brewis@asu.edu

Short Bio: Alexandra Brewis a biocultural anthropologist and a Regents Professor and a President's Professor in the School of Human Evolution and Social Change (SHESC) at Arizona State University. Her research focuses on how cultural and social categories interact with human biology to shape health outcomes. This has included advancing theories of stigma as dynamic processes with powerful (but mostly invisible) roles as drivers of biological using the cases of body weight and water insecurity.

Trained in human biology, medical anthropology, and demography, recent publications include the multi-award-winning book -- *Lazy, Crazy, and Disgusting: Stigma and the Undoing of Global Health*. Recognitions include election as a Fellow of the American Association for the Advancement of Science (AAAS), the Conrad M. Arensberg Award from the American Anthropological Association honoring an individual who has furthered anthropology as a natural science, and the Human Biology Association Distinguished Lifetime Achievement Award for exemplary contributions to human biology in science, scholarship, & professional service.

Alex currently serves as Founding Director and strategic lead of ASU's Center for Global Health and Senior Editor for the journal Social Science and Medicine. Alex previously served as President of the Human Biology Association, and as Director of ASU's School of Human Evolution and Social Change and Associate Vice President for Social Science.
